Contracting for Services in State and Local Government Agencies William Sims Curry, 2008-11-05 *The First Complete Contracting Reference/ Textbook for State and Local Agencies* Federal contracting officials have a comprehensive resource in the Federal Acquisition Regulations (FAR) to guide them through the arduous contracting process; however, until now there has been no such counterpart for state and local government agencies. *Contracting for Services in State and Local Government Agencies* is the first reference book of its kind specifically designed to provide state and local administrators with a concise authoritative resource on contracting for services. Draws from the best features of existing RFPs and contracts nationwide In preparation for writing this book, author William Sims Curry contacted all 50 state governments, as well a large selection of city and county governments, and asked them to participate in the development of templates for Requests for Proposals (RFPs) and service contracts. These agencies were asked to complete a questionnaire and provide

copies of their RFP and service contract templates. Out of their contributions, the best features from each were incorporated into the Best Practices RFP and Service Contract, which are presented here in this volume. The templates can be readily downloaded from an included CD-ROM. These can be fully adapted to meet any specific need. In the text, both of these documents are examined, line by line, with the author explaining specific language choices. Guides you through the contracting process, step-by-step. In addition to these model documents, additional techniques and tools are introduced to assist agencies in improving their services contracting programs. The book is presented in the sequence of the contracting cycle, beginning with advance contract planning and proceeding to pre-solicitation, solicitation, proposal evaluation, negotiation, and award through contract administration and closeout. By adopting the techniques in this book, state and local agencies will be able to effectively contract for services, get the best price available, and get important jobs done on time.

Contract Law and the Legislature TT Arvind,Jenny Steele,2020-08-06 This volume revisits some of the key debates about the nature and shape of contract law, in light of the impact that statutes have had on its development. With contributions from leading contract law scholars, it fills a significant gap in existing theoretical and doctrinal analyses of contract law, which rely primarily on cases to put forward accounts of the general principles and structure of contract law. Statutory rules are, typically, seen as being specific instances of legal regulation that carve out exceptions to these general principles for specific reasons of policy. This treatment of these rules has resulted in an incomplete understanding of the nature of contract law and the principles that underpin it. By drawing specifically on contract statutes, the volume produces a more complete picture of modern contract law. A companion to the ground-breaking *Tort Law and the Legislature: Common Law, Statute and the Dynamics of Legal Change* (Hart Publishing, 2012) this collection will have a significant impact on the study of contract law.

Hollywood on Strike! Jonathan Handel, 2011 It was a Hollywood meltdown ...The Writers Guild went on strike in 2007. The big issue: fees for programs released on new media such as the Internet. The strike was settled one hundred turbulent days later - but then the Screen Actors Guild spiraled out of control, unwilling to accept the same terms but unable to muster a second strike. As the national economy collapsed, idled writers and actors sacrificed millions of dollars in film and TV wages in order to pursue pennies in new media. All told, the turmoil lasted about two years. But why? Analyzing events as they unfolded, Los Angeles entertainment attorney and journalist Jonathan Handel lays bare the contracts, economics and politics swirling behind the paradox of Hollywood labor relations. Handel is a uniquely qualified guide: a former associate counsel at the Writers Guild, his law practice at TroyGould focuses on new media and entertainment. He was described as "one of the most-quoted sources on the strike," and recently taught a course on entertainment unions and guilds as an

adjunct professor at UCLA School of Law. Handel covers entertainment labor as a Contributing Editor for The Hollywood Reporter and his writing also appears on Forbes.com and the Huffington Post. As a commentator, Handel has appeared in the media hundreds of times. The 2007-2009 contracts, so hard fought, brought scant months of labor peace: renegotiations began in 2010, and recur every three years. That makes this book essential reading for anyone who wants to understand Hollywood in the digital age.

Barrington has run popular workshops to help professional researchers and evaluators determine if they have what it takes to succeed as consultants. With Barrington's advice and encouragement, independent practitioners have the roadmap to success! I would highly recommend it to anyone starting a consulting career. The author has truly singled out the most important lessons to be passed on, both of the practical type and of those related to consultancy. -George Grob, Center for Public Program Evaluation This book addresses a big and important gap in the evaluation literature. It provides a clear and concise account of what evaluators and applied researchers need to know in order to succeed in independent consulting practice. -Stewart Donaldson, Claremont Graduate University
