Ditch That Textbook Matt Miller,2015-04-13 Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting by the textbook implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning In Ditch That Textbook, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods. Ditch That Textbook is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms.

Craigslist Confessional Helena Dea Bala,2020-07-07 "Touching." —The New York Times For fans of Humans of New York and PostSecret, a collection of raw, urgent, and heartfelt stories, shared anonymously. Helena Dea Bala was an exhausted and isolated DC lobbyist, suffocating under the weight of her student loan debt, when she decided to split her lunch with a man who often panhandled near her office. They chatted effortlessly as they ate; there were no half-truths or white lies, and no fear of judgment. Helena felt connected and unburdened in a way she hadn't in years. Inspired, she posted an ad on Craigslist promising to listen, anonymously and for free, to whatever the speaker felt he or she couldn't tell anyone else. Emails from people desperate to connect flooded her inbox, and she listened. Within months, Helena quit her job, deferred her loans, and dove into listening full time. The forty first-person confessions in this book are vivid, intimate, and real; they range from devastating traumas, to lost loves, to reflections on hard choices. Some accounts are quotidian, like that of one increasingly estranged husband: "I want to feel that we're not just roommates—that we're not just waiting for the kids to grow up so that we can move on." Others are deeply disconcerting, like that of a sex addict employed by a religious organization and several are heartening, like that of a mother who dares to hope that her daughter, born with life-threatening heart defects, will one day walk down the aisle: "Sometimes you need to have the audacity to believe that it will all be okay, that it is okay to have the same kinds of dreams as everyone else." In its complex portrayal of the common human experience, Craigslist Confessional challenges us to explore the depths of our vulnerability and expand the borders of our empathy.

Drawdown Paul Hawken, 2017-04-18 • New York Times bestseller • The 100 most substantive solutions to reverse global warming, based on meticulous research by leading scientists and policymakers around the world “At this point in time, the Drawdown book is exactly what is needed; a credible, conservative solution-by-solution narrative that we can do it. Reading it is an effective inoculation against the widespread perception of doom that humanity cannot and will not solve the climate crisis. Reported by-effects include increased determination and a sense of grounded hope.” —Per Espen Stoknes, Author, What We Think About When We Try Not To Think About Global Warming “There’s been no real way for ordinary people to get an understanding of what they can do and what impact it can have. There remains no single, comprehensive, reliable compendium of carbon-reduction solutions across sectors. At least until now. . . . The public is hungry for this kind of practical wisdom.” —David Roberts, Vox “This is the ideal environmental sciences textbook—only it is too interesting and inspiring to be called a textbook.” —Peter Kareiva, Director of the Institute of the Environment and Sustainability, UCLA In the face of widespread fear and apathy, an international coalition of researchers, professionals, and scientists have come together to offer a set of realistic and bold solutions to climate change. One hundred techniques and practices are described here—some are well known; some you may have never heard of. They range from clean energy to educating girls in lower-income countries to land use practices that pull carbon out of the air. The solutions exist, are economically viable, and communities throughout the world are currently enacting them with skill and determination. If deployed collectively on a global scale over the next thirty years, they represent a credible path forward, not just to slow the earth’s warming but to reach drawdown, that point in time when greenhouse gases in the atmosphere peak and begin to decline. These measures promise cascading benefits to human health, security, prosperity, and well-being—giving us every reason to see this

planetary crisis as an opportunity to create a just and livable world.

D-Day Invasion iMinds,2014-05-14 The story behind D-Day begins in 1939 when Nazi Germany, led by Adolf Hitler, attacked Poland and ignited World War Two. The following year, the Germans occupied France and Western Europe and launched a vicious air war against Britain. In 1941, they invaded the Soviet Union. Seemingly unstoppable, the Nazis now held virtually all of Europe. They imposed a ruthless system of control and unleashed the horror of the Holocaust. However, by 1943, the tide had begun to turn in favor of the Allies, the forces opposed to Germany. In the east, despite huge losses, the Soviets began to force the Germans back.

Select Effective Visuals Dave Paradi,2015-05 This book contains a three step approach to help business professionals

create effective presentation visuals. Step 1 is writing a headline that summarizes the message you want the audience to understand and remember from that slide. Step 2 is to select and create an effective visual for the slide. The book focuses on this step because corporate presenters have said they need the most help with this area. The different messages in business presentations are broken down into six categories. The 66 visuals shown are organized into 30 groups and sub-groups under the six categories. Each visual is explained, examples are shown, and tips for creating the visual are given. Step 3 is to focus the audience during the delivery of the slide by using callouts, building the slide piece by piece, and by organizing complex information.--
