The Book Proposal Book Laura Portwood-Stacer,2021-07-13 A step-by-step guide to crafting a compelling scholarly book proposal—and seeing your book through to successful publication The scholarly book proposal may be academia's most mysterious genre. You have to write one to get published, but most scholars receive no training on how to do so—and you may have never even seen a proposal before you're expected to produce your own. *The Book Proposal Book* cuts through the mystery and guides prospective authors step by step through the process of crafting a compelling proposal and pitching it to university presses and other academic publishers. Laura Portwood-Stacer, an experienced developmental editor and publishing consultant for academic authors, shows how to select the right presses to target, identify audiences and competing titles, and write a project description that will grab the attention of editors—breaking the entire process into discrete, manageable tasks. The book features over fifty time-tested tips to make your proposal stand out; sample prospectuses, a letter of inquiry, and a response to reader reports from real authors; optional worksheets and checklists; answers to dozens of the most common questions about the scholarly publishing process; and much, much more. Whether you're hoping to publish your first book or you're a seasoned author with an unfinished proposal languishing on your hard drive, *The Book Proposal Book* provides honest, empathetic, and invaluable advice on how to overcome common sticking points and get your book published. It also shows why, far from being merely a hurdle to clear, a well-conceived proposal can

help lead to an outstanding book.

Macs in the Ministry David Lang,2010-02-21 Macs in the Ministry - Your ministry demands your time, energy, creativity, passion and commitment. But you've got a Mac, so you have a tool that can save you time and energy, spark your creativity, and enable you to keep your commitments without losing your passion. Find out how to harness the programs you already have, along with additional resources you may want to consider, to help you in nearly every aspect of your ministry. Part One of this book is about Inspiration: about discovering what's possible. Learn how to use online resources or Bible software to prepare a lesson or sermon. Discover the variety of ways you can present your message to a congregation or audience: using video created in iMovie, photo slide shows prepared in iPhoto, original music recorded in GarageBand, and more elaborate presentations using Keynote or specialized worship software. Learn how you can publish your message to a wider audience: through flyers, handouts, and other print publications; by creating podcasts and vodcasts (video podcasts) and distributing them through iTunes; by creating your own professional-quality CDs and DVDs; by making your videos available through websites like YouTube; or by developing your own great-looking websites using iWeb and Apple's MobileMe service. Once you're pumped about all the exciting ways you can present and publish your message, you'll probably need to enlist some help from others. Use the Mac to get members of your congregation or church youth group participating in your ministry. With so many different ways to use Macs in ministry, there are countless opportunities to get people using their gifts in service to the kingdom. Going one step further, you'll even see how the Mac can be used to meet practical needs. Forget car washes to raise money for youth retreats and mission trips! Why not develop and sell personalized greeting cards, calendars, audio CDs, or video DVDs? How about starting a ministry to train people in the community to do basic video editing, page

layout, or web design? With a little creativity, you can use your Mac to minister to people's practical needs as well as to present a polished message. Part Two of this book is about perspiration: about actually making these things happen. Here you'll find a series of projects that will show you how to do all the things you're now inspired to do. Get step-by-step instructions for creating an iMovie, developing slide shows and print projects in iPhoto, recording and publishing podcasts, producing a DVD, and developing a web-site in iWeb. See what you can do using other applications like Pages, Keynote, Bible study software, and worship presentation software. Where Part One will get your wheels turning, Part Two will actually get you moving!
