Understanding and Creating Digital Texts Richard Beach,Chris M. Anson, Lee-Ann Kastman Breuch,Thomas Reynolds,2014-10-16 Given the increased use of digital reading and writing tools in the classroom, this book provides secondary and college English language arts teachers with activities and classroom examples for using a range of different digital tools—blogs, wikis, websites, annotations, Twitter, mapping, forum discussions, etc.—to engage students in understanding and creating digital texts. It therefore integrates reading and writing instruction through goal-driven activities supported by uses and affordances of digital tools. This book also provides a framework for designing these activities that encourage students to define purpose and audience, make connections between digital texts and people, collaborate with others, employ alternative modes of communication and gain new perspectives, and constructing identities; practices that are linked to addressing the high school English Language Arts Common Core State Standards. The book also describes ways to use digital tools to support these practices—for example, using digital tools to foster students' collaborative reading and writing. The book also describes use of digital feedback and e-portfolio tools to foster students' reflection on their uses of these practices.

Inclusive Learning 365 Christopher Bugaj, Karen Janowski, Mike Marotta, Beth Poss, 2022-08-03 Designed to be read one day - and page - at a time, this book from four inclusive learning experts offers 365 strategies for implementing technology to design inclusive experiences. Educators across the world are working to design individualized instruction that empowers every student to become experts at learning. Technology and instructional interventions designed to support students with disabilities often eventually become mainstream and used by the masses. These practices provide a pathway for designing inclusive, equitable and accessible educational experiences that meet the needs of every individual learner. This engaging book includes daily strategies accompanied by examples of tools that can be implemented immediately to design meaningful instruction. Topics covered include role-playing games for social-emotional learning, building literacy through captioned video, coding to teach early literacy, text-to-speech for math and reading, and much more! Each daily strategy includes:

- Explanation of how to use the strategy to design inclusive educational experiences.
- Examples of tools that can be used to implement the strategy.
- Alternative ways to use the strategy to extend student learning.
- Images illustrating the strategy or tool.
- Identification of relevant ISTE Standards for Educators and ISTE Standards for Students. Related resources. The heart of the book is the shift in mindset that occurs by exploring a different practical, inclusive strategy each day and infusing these strategies into everyday practice.

Enhancing Teaching and Learning Jean Donham, Chelsea Sims, 2019-03-30 Rapid change calls for informed leadership. The goal of Donham's text has always been to help school library professionals make a difference in the educational experience and academic attainment of students in their schools. With the addition of new co-author Sims, a junior high school librarian, this newly revised fourth edition rises to the challenge with updates and enhancements that confirm its value as an important resource for both LIS students and current school librarians. Covering all aspects of the school system, including students, curriculum and instruction, principals, district administration, and the community, it demonstrates how to interact and collaborate in order to integrate the school library program throughout these environments. Inside, readers will find myriad real-world examples of issues in school librarianship and evidence-based practice; discussion of such urgent topics as the educational needs of the iGen (those born between 1995 and 2012), changing reading habits, the influence of the media, and news literacy and other issues related to the proliferation of fake news; updates which touch upon the new AASL Standards, inquiry-based learning, assessment, and library program evaluation; specific tactics for establishing the library program as an active player in teaching and learning; an overview of education-related technology such as course management systems, the virtual library, makerspaces, information presentation and data representation tools like ScreenCast and Google Maps, online home-school communication, and online student safety and privacy; and end-of-chapter discussion scenarios that explore opportunities for the practical application of concepts. Reflecting changes—professional, theoretical, legal, and political—in both the library field and education, this new edition of a groundbreaking school library text will equip readers to be leaders at their schools and in their communities.

Lesson Planning with Purpose Christy McConnell, Bradley Conrad, P. Bruce Uhrmacher, 2020 When teachers and students are both engaged in the educational enterprise, every day has the potential to be transformative. *Lesson Planning with Purpose* takes readers on a journey through many pathways to engaging and meaningful educational experiences. The text first discusses Perceptive Teaching: the belief that teachers must know themselves and their students while cultivating culturally sensitive, safe, and inviting spaces for learning for all students. Next, five unique approaches to lesson planning

are explored: behaviorist, constructivist, aesthetic, ecological, and integrated social-emotional learning. Each chapter provides the rationale for the approach, its theoretical background, practical applications, and critiques and considerations. Chapters end with a sample lesson that can be compared across approaches. Book Features: A comprehensive examination of multiple approaches to lesson planning. Guidance for teachers on when to choose various approaches, as well as how they might mix and match and blend ideas. User-friendly lesson plan templates, sample lessons, and discussion questions. An appendix with lesson plan examples written by practicing teachers across content areas and age groups.

User Experience Research Marty Gage, Spencer Murrell, 2022-05-10 The Fuzzy Front End Gets Demystified in This Next-Generation User Research Guide The first phase of the design thinking process is arguably the most crucial, as this is when human insights are leveraged to define value for customers. Yet this so-called empathize phase is often deemed optional or is executed poorly. This degrades the entire innovation process that follows by permitting preexisting biases and guesswork that make value creation a precarious bet. In *User Experience Research: Discover What Customers Really Want*, a human factors psychologist and an industrial designer have devised a foolproof first phase that addresses the shortcomings of the design thinking process. Based on their forty years of generative research experience in multiple industries, this is the definitive guide to user experience research. This repeatable approach is grounded in six key principles that connects users' desired emotional states to an actionable articulation of an experience. It also provides guidance on creating ideal experience frameworks that communicate clearly with all stakeholders, from business leaders to design practitioners. *User Experience Research: Discover What Customers Really Want* is an indispensable, fully illustrated, step-by-step manual for anyone seeking a more predictable pathway to the design of new or improved experiences that users truly desire and would find valuable.

Practical Steps to Digital Research Deborah B. Stanley, 2018-07-11 This hands-on approach to teaching digital research skills breaks down each research skill into simple, targeted steps that enable students to research more deeply and to accomplish real-world tasks. Today's rapidly diversifying digital world provides easy access to information, making it increasingly important that students know how to conduct research online. In this book, you'll learn how to transition your instruction of the research process from a print context to a digital one, and to expand your own knowledge of how to best assist students at all stages of their research. Using six well-defined steps that she developed in her 26 years of experience as a school librarian, Deb Stanley provides practical strategies for each of the six steps of the research process accompanied by easily used and replicated lessons and handouts that are applicable and adaptable to all grade levels K-12. Step-by-step instruction, links to Common Core state standards, and ideas to help students succeed at each stage of the research process makes this title a must-have for any school librarian.

Open Source Technology: Concepts, Methodologies, Tools, and Applications Management Association,

Information Resources,2014-11-30 The pervasiveness of and universal access to modern Information and Communication Technologies has enabled a popular new paradigm in the dissemination of information, art, and ideas. Now, instead of relying on a finite number of content providers to control the flow of information, users can generate and disseminate their own content for a wider audience. Open Source Technology: Concepts, Methodologies, Tools, and Applications investigates examples and methodologies in user-generated and freely-accessible content available through electronic and online media. With applications in education, government, entertainment, and more, the technologies explored in these volumes will provide a comprehensive reference for web designers, software developers, and practitioners in a wide variety of fields and disciplines.

Handbook of Research on Digital Tools for Writing Instruction in K-12 Settings Anderson, Rebecca S.,2014-04-30 More emphasis is being placed on writing instruction in K-12 schools than ever before. With the growing number of digital tools in the classroom, it is important that K-12 teachers learn how to use these tools to effectively teach writing in all content areas. The Handbook of Research on Digital Tools for Writing Instruction in K-12 Settings will provide research about how students use digital tools to write, both in and out of school settings, as well as discuss issues and concerns related to the use of these learning methods. This publication is beneficial to educators, professionals, and researchers working in the field of K-12 and teacher education.

Coaching in Communities Melissa Mosley Wetzels, Kerry H. Alexander, Claire Collins,2023-05-30 A revolutionary framework for teacher learning centered on justice-focused coaching that encourages culturally responsive practice and

disrupts systems of oppression. In *Coaching in Communities*, researcher Melissa Mosley Wetzel and her coauthors distill the lessons of an eight-year study into a transformative educator training model, *Coaching with CARE* (critical and content-focused, appreciative, reflective, and experiential). They demonstrate how effective, contextual teacher training can be a cornerstone of educational justice, which occurs when all learners are supported to be successful in school and when schools expand notions of success to include diverse ways of life and learning. The authors show how this new framework, which draws from behavioral, cognitive, humanistic, and critical models of coaching, can be used in professional and informal learning contexts, and in dialogue with families and communities, to upend the status quo, break down the expert-novice distinction, and cultivate just forms of practice. As they note, the work of justice is collaborative, sustained engagement in resistance to marginalization, racism, and other inequities. *Coaching in Communities* presents a set of tools, including shared inquiry and coaching cycles of observation, reflection, and debriefing, and demonstrates how they work in real-life settings. With these tools, teacher education programs as well as districts, schools, and other organizations can train for change, which is one essential step in school transformation.
