*The Manager's Handbook* Alex Maccaw,2021-08-16 This handbook is the practical guide to becoming a great manager. It covers all the major topics including hiring, coaching, feedback, one-on-ones, and decision making. It also covers some of softer, but equally important, topics like conflict resolution and mental health. Great management changes lives. In fact, it's one of the most single overlooked pieces of leverage in the world. Great managers are remembered like great teachers, inspirations who help others soar. That's why it's such a shame management training is so often overlooked. Successful individual-contributors are rewarded with a 'promotion' into management and then, more often than not, left to sink or swim. If you're a new manager, this book will shine a friendly light on the road ahead. And if you're an old dog, perhaps it'll teach you a trick or two. This handbook was written by Alex MacCaw and stress-tested at a company called Clearbit.

*The Plot Dot* Derek Murphy, 2016-04-13 An Adult Coloring Book for Authors! This book will help you paint powerful visual scenes that stick with readers long after they're finished your book. The techniques described within are simple and easy to use. Think of this as a guided coloring book adventure. YOUR adventure. There are lots of systems and guides to plotting, but if you're like me you have journals filled with notes, scenes and description... it can get overwhelming. I've based this book on traditional three-act story architecture, but it's greatly simplified. Plotters and pantsers can use the guided exercises to gain greater visual clarity and build more meaningful scenes with resonance. This book will help you get organized and unlock hidden potential in your scenes that you didn't know was there, by going beyond words and focusing on drawing and coloring your scenes until you have a full outline. This book makes an excellent workbook for writing retreats, is simple enough for children to use (it's never too early to write your first novel), and introduces a new, and hopefully useful, way to organize your novel, improve your writing, and create unforgettable scenes that will make a deep and lasting impact.

Write Your Novel from the Middle James Scott Bell, 2014-03-15 A powerful secret and a fresh approach to writing bestselling fiction! What's the best way to write a next level novel? Some writers start at the beginning and let the story unfold without a plan. They are called pantsers, because they write by the seat of the pants. Other writers plan and outline and know the ending before they start. These are the plotters. The two sides never seem to agree with each other on the best approach. But what if it's not the beginning or the end that is the key to a successful book? What if, amazing as it may seem, the place to begin writing your novel is in the very middle of the story? According to #1 bestselling writing teacher James Scott Bell, that's exactly where you'll find your story's heart and heat. Bell's Mirror Moment is the secret, and its power is available to any writer, at any stage of the writing process. Bringing together years of craft study and personal discovery, Bell presents a truly unique approach to writing a novel, one that will stand the test of time and serve you all your writing life. I need three things before I tackle a new novel: Diet Coke, a laptop, and my dog-eared copies of James Scott Bell's books on writing craft! - Kami Garcia, #1 NYT Times & International Bestselling author

*Romancing the Beat* Gwen Hayes,2016 What makes a romance novel a romance? How do you write a kissing book?Writing a well-structured romance isn't the same as writing any other genre-something the popular novel and screenwriting guides don't address. The romance arc is made up of its own story beats, and the external plot and theme need to be braided to the romance arc-not the other way around.Told in conversational (and often irreverent) prose, *Romancing the Beat* can be read like you are sitting down to coffee with romance editor and author Gwen Hayes while she explains story structure. The way she does with her clients. Some of whom are regular inhabitants of the New York Times and USA Today bestseller lists.*Romancing the Beat* is a recipe, not a rigid system. The beats don't care if you plot or outline before you write, or if you pants your way through the drafts and do a beat check when you're revising. Pantsers and plotters are both welcome. So sit down, grab a cuppa, and let's talk about kissing books.
