Scandinavism: Overlapping and Competing Identities in the Nordic World, 1770-1919 Tim van Gerven, 2022-01-21 Winner of the 2022 Nordic History Book Award Despite its failure as a political mobilizer, Scandinavism as a cultural movement would have a great impact on national consciousness-raising in Denmark, Norway, and Sweden by stressing common ethnolinguistic, mythological and historical roots. This cultural vision is traced in 'the Long 19th Century', specifically in its interactions and overlaps with the various nationally specific manifestations of cultural nationalism. Through an in-depth analysis of an extensive corpus of cultural products - ranging from novels and poetry to public commemorations, painting and street name signs - this book demonstrates that cultural Scandinavism was successful in forging a common pan-Scandinavian identity that supplemented and strengthened national-identity formation in the three nationalities it aimed to unify. Elderflora Jared Farmer, 2022-10-18 The epic story of the planet's oldest trees and the making of the modern world Humans have always revered long-lived trees. But as historian Jared Farmer reveals in *Elderflora*, our veneration took a modern turn in the eighteenth century, when naturalists embarked on a quest to locate and precisely date the oldest living things on earth. The new science of tree time prompted travelers to visit ancient specimens and conservationists to protect

sacred groves. Exploitation accompanied sanctification, as old-growth forests succumbed to imperial expansion and the industrial revolution. Taking us from Lebanon to New Zealand to California, Farmer surveys the complex history of the world's oldest trees, including voices of Indigenous peoples, religious figures, and contemporary scientists who study elderflora in crisis. In a changing climate, a long future is still possible, Farmer shows, but only if we give care to young things that might grow old.
