Ditch That Textbook Matt Miller,2015-04-13 Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting by the textbook implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning In *Ditch That Textbook*, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods. *Ditch That Textbook* is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms.

Class Paul Fussell,1992 This book describes the living-room artifacts, clothing styles, and intellectual proclivities of American classes from top to bottom.

The Revolt of the Public and the Crisis of Authority in the New Millennium Martin Gurri ,2018-12-04 How insurgencies—enabled by digital devices and a vast information sphere—have mobilized millions of ordinary people around the world. In the words of economist and scholar Arnold Kling, Martin Gurri saw it coming. Technology has categorically reversed the information balance of power between the public and the elites who manage the great hierarchical institutions of the industrial age: government, political parties, the media. *The Revolt of the Public* tells the story of how insurgencies, enabled by digital devices and a vast information sphere, have mobilized millions of ordinary people around the world. Originally published in 2014, *The Revolt of the Public* is now available in an updated edition, which includes an extensive analysis of Donald Trump's improbable rise to the presidency and the electoral triumphs of Brexit. The book concludes with a speculative look forward, pondering whether the current elite class can bring about a reformation of the democratic process

and whether new organizing principles, adapted to a digital world, can arise out of the present political turbulence.

The New Sultan Soner Cagaptay,2017-04-30 In a world of rising tensions between Russia and the United States, the Middle East and Europe, Sunnis and Shiites, Islamism and liberalism, Turkey is at the epicentre. And at the heart of Turkey is its right-wing populist president, Recep Tayyip Erdo?an. Since 2002, Erdo?an has consolidated his hold on domestic politics while using military and diplomatic means to solidify Turkey as a regional power. His crackdown has been brutal and consistent - scores of journalists arrested, academics officially banned from leaving the country, university deans fired and many of the highest-ranking military officers arrested. In some senses, the nefarious and failed 2016 coup has given Erdo?an the licence to make good on his repeated promise to bring order and stability under a 'strongman'. Here, leading Turkish expert Soner Cagaptay will look at Erdo?an's roots in Turkish history, what he believes in and how he has cemented his rule, as well as what this means for the world. The book will also unpick the 'threats' Erdogan has worked to combat - from the liberal Turks to the Gulen movement, from coup plotters to Kurdish nationalists - all of which have culminated in the crisis of modern Turkey.

Post Memes ,2019 Art-form, send-up, farce, ironic disarticulation, pastiche, propaganda, trololololol, mode of critique, mode of production, means of politicisation, even of subjectivation -- memes are the inner currency of the internet's circulatory system. Independent of any one set value, memes are famously the mode of conveyance for the alt-right, the irony left, and the apoliticos alike, and they are impervious to many economic valuations: the attempts made in co-opting their discourse in advertising and big business have made little headway, and have usually been derailed by retaliative meming. Post-Memes: Seizing the Memes of Production takes advantage of the meme's subversive adaptability and ripeness for a focused, in-depth study. Pulling together the interrogative forces of a raft of thinkers at the forefront of tech theory and media dissection, this collection of essays paves a way to articulating the semiotic fabric of the early 21st century's most prevalent means of content posting, and aims at the very seizing of the memes of production for the imagining and creation

of new political horizons. With contributions from Scott and McKenzie Wark, Patricia Reed, Jay Owens, Thomas Hobson and Kaajal Modi, Dominic Pettman, Bogna M. Konior, and Eric Wilson, among others, this essay volume offers the freshest approaches available in the field of memes studies and inaugurates a new kind of writing about the newest manifestations of the written online. The book aims to become the go-to resource for all students and scholars of memes, and will be of the utmost interest to anyone interested in the internet's most viral phenomenon.

When He's An Alpha Suzanne Wright, 2021-03-03 The golden rule of shallow flings is not to get attached, right? Well, Havana Ramos broke it. Big time. There's just something about Tate Devereaux that pulls at her. Assertive, compelling, and self-assured, the Alpha cat shifter pushes every one of her best buttons. Like really, really hard. Having overheard an enlightening conversation, she knows he won't give her more than a fling-something, to be fair, he'd told her well in advance. If she doesn't want her heart to get bruised, it's time to end what little they have. It's not like he'll care or anything. Except ...

it turns out that he does. Newly-appointed Alpha Tate Devereaux is never bothered when women walk away. He can't exactly blame them, given his distrustful cat's habit of withdrawing from relationships. But when lone shifter Havana ends their fling, everything within Tate rebels against it-including his cat. Even as she and Tate work together to crush the threat looming over her, Havana holds him at arms' length. But if she thinks she can end their fling with no real explanation and that he'll just tip his hat and walk away, she's forgotten one very important thing-there's nothing easy about shaking off an Alpha.
