Handbook of Research on Adapting Remote Learning Practices for Early Childhood and Elementary School Classrooms

Courtney-Dattola, Ashley, 2021-12-17 Teaching is a demanding profession as there is constant fluctuation and evolution. A portion of teaching is the ability to be able to adapt to various environments, especially shifting from in-person instruction to online practices. Over the last few years, early childhood and elementary school classrooms have been thrust into hybrid and remote learning environments, and it is vital that educators and institutions adapt to new practices and create various outlets for teachers to be able to more adequately reach their young audience. The Handbook of Research on Adapting Remote Learning Practices for Early Childhood and Elementary School Classrooms is a critical resource to assist teachers as they develop online teaching practices and work to cater to young students so that they can receive the strongest benefits from their education. Through coverage of topics such as hybrid learning and parental involvement, paired with sample lesson plans, course formats, concepts, ideas, and additional components to further the body of research pertaining to remote learning, this book is tremendously beneficial to administrators, researchers, academicians, practitioners, instructors, and students.

Digital Feedback Methods Jennifer Schluer, 2022-09-05 Feedback spielt eine entscheidende Rolle im Lernprozess. Doch welche Möglichkeiten gibt es, Lernprozesse durch digitales Feedback zu unterstützen? Dieses Buch bietet Lehrenden und Studierenden ein wissenschaftlich fundiertes Orientierungs- und Anwendungswissen zu digitalen Feedbackmethoden.

Diese können nicht nur im Online- oder Hybridunterricht eingesetzt werden, sondern auch den Präsenzunterricht bereichern. Die Vorzüge und Grenzen der jeweiligen digitalen Feedbackmethoden werden diskutiert und Umsetzungsempfehlungen abgeleitet. Dies umfasst u.a. schriftliches Feedback im Texteditor, in Cloud-Dokumenten, in Chats, Diskussionsforen, Wikis, Umfragen und E-Mails sowie multimodales Feedback in Videokonferenzen und per Audio-, Video- und Bildschirmaufnahme. Darüber hinaus werden Vorschläge gegeben, um verschiedene Methoden sinnhaft miteinander zu kombinieren und Lerndialoge anzuregen.

Handbook of Research on Active Learning and Student Engagement in Higher Education Keengwe, Jared, 2022-06-10 Active learning occurs when a learning task can be related in a non-arbitrary manner to what the learner already knows and when there is a personal recognition of the links between concepts. The most important element of active learning is not so much in how information is presented, but how new information is integrated into an existing knowledge base. In order to successfully implement active learning into higher education, its effect on student engagement must be studied and considered. The Handbook of Research on Active Learning and Student Engagement in Higher Education focuses on assessing the effectiveness of active learning and constructivist teaching to promote student engagement and provides a wide range of strategies and frameworks to help educators and other practitioners examine the benefits, challenges, and opportunities for using active learning approaches to maximize student learning. Covering topics such as online learning environments and engagement approaches, this major reference work is ideal for academicians, practitioners, researchers, librarians, industry professionals, educators, and students.

Technology in Retrospect Richard A. Diem,Michael J. Berson,2010-06-01 January 2009 marked the 25th anniversary of

one of the most famous three minutes of television history. It was during half-time of the 1984 Super Bowl that APPLE show cased its new Macintosh Computer in an avant-guard commercial. In the following three weeks sales of the new computer, in both the public and private sectors, took off leading some to note this occasion as the true start of the information age. At the same time schools joined this so-called information revolution and began to use the new technology, in various forms, in a much more serious manner. Given both the changing nature of technology, as well as its classroom applications, over the past quarter century this work's goal is to capture the historical trends of both use and application of information technology in the social studies during this era. This is done by providing a retrospective view , from 1984 through 2009 , of where we've been, where we are, and a view of new tools and strategies and possible studies that are emerging that can enhance our understanding of the effects that technology has and will have on the social studies.

Infusing Technology in the K-5 Classroom Valerie Morrison, Stephanie Novak, Tim Vanderwerff, 2022-08-24 K-5 teachers will discover how to integrate the tech requirements found within today's academic standards into their everyday curriculum. Perhaps your district provides current technology development for staff on a regular basis and has instructional coaches to help teachers infuse technology into their curriculum to meet various academic standards. But in reality, most districts don't have this kind of support. In this book (the first in a two-book series), you'll learn how to shift your instructional practice and leverage technology to meet today's curriculum education standards for grades K-5. This book doesn't cover every K-5 national standard, but identifies the standards with a technology component and provides resources and lessons to help you teach those standards effectively. This book includes:

- Classroom-tested lesson ideas in English language arts, math, science and social studies mapped to ISTE and tech-related standards to support college- and career-readiness.
- Lists of technology-embedded college- and career-readiness standards for each grade level, along with practical ideas and up-to-date resources (apps, software and websites) that can be used in meeting these standards.
- Suggestions for addressing roadblocks to incorporating technology in the classroom.
- Ways to incorporate staff development and parental support at the school level.

From Curiosity to Deep Learning Julie Coiro, Elizabeth Dobler, Karen Pelekis, 2023-10-10 From Curiosity to Deep Learning: Personal Digital Inquiry in Grades K-5 reveals the powerful learning that results when you integrate purposeful technology into a classroom culture that values curiosity and deep learning. The centerpiece of this practical guide is Personal Digital Inquiry (PDI), a framework developed by Julie Coiro and implemented in classrooms by her co-authors, Elizabeth Dobler and Karen Pelekis. Clear, detailed examples offer ideas for K-5 teachers and school librarians to support their teaching. Personal emphasizes the significance of the personal relationship between teachers and students, and the role that students have in the learning process. Digital reflects the important role that digital texts and tools have come to play in both learning and teaching with inquiry. Inquiry lies at the core of PDI, because learners grow and change with opportunities to identify problems, generate personal wonderings, and engage in collaborative dialogue, making learning relevant and lasting. From Curiosity to Deep Learning: Personal Digital Inquiry in Grades K-5 shows you how to integrate inquiry with a

range of digital tools and resources that will create a dynamic classroom for both you and your students.

Melting the ice: Engaging and educational ice-breaker activities for every learning session Jen Schneider,2023-04-14 The first five minutes of a classroom experience are critical. The tone set in a session's opening minutes can significantly impact and influence, in both positive and negative ways, the quality and nature of the subsequent learning experience. How students spend that time can also have a positive impact on their learning in both the short and long term. When the opening minutes of a class are approached as an opportunity to build student connections, collaboration, and community, all learners benefit. As more and more learning experiences occur in synchronous and asynchronous online learning environments, strategies that both welcome students to online sessions and support student learning are increasingly important. Traditional ice breakers, while typically shared with a goal of building community and student engagement, can sometimes have unintended or even negative consequences on students. This text shares a collection of powerful, opening activities that are designed to simultaneously engage students, build safe and connected classroom communities, and support student learning. All strategies are easily adapted and personalized to fit individual course and content needs including face-to-face, synchronous online, and asynchronous online learning contexts. Shared activities are aligned with associated learning-science research and incorporate strategies that have been shown to support student engagement and learning such as retrieval practice, active recall, spaced practice, and interleaving, among other

evidence-based instructional strategies.
