[Fair Play: Reese's Book Club](#) Eve Rodsky, 2021-01-05 AN INSTANT NEW YORK TIMES BESTSELLER • A REESE'S BOOK CLUB PICK Tired, stressed, and in need of more help from your partner? Imagine running your household (and life!) in a new way... It started with the Sh*t I Do List. Tired of being the “shefault” parent responsible for all aspects of her busy household, Eve Rodsky counted up all the unpaid, invisible work she was doing for her family—and then sent that list to her husband, asking for things to change. His response was...underwhelming. Rodsky realized that simply identifying the issue of unequal labor on the home front wasn't enough: She needed a solution to this universal problem. Her sanity, identity, career, and marriage depended on it. The result is Fair Play: a time- and anxiety-saving system that offers couples a completely new way to divvy up domestic responsibilities. Rodsky interviewed more than five hundred men and women from all walks of life to figure out what the invisible work in a family actually entails and how to get it all done efficiently. With 4 easy-to-follow rules, 100 household tasks, and a series of conversation starters for you and your partner, Fair Play helps you prioritize what's important to your family and who should take the lead on every chore, from laundry to homework to dinner. “Winning” this game means rebalancing your home life, reigniting your relationship with your significant other, and reclaiming your Unicorn

Space—the time to develop the skills and passions that keep you interested and interesting. Stop drowning in to-dos and lose some of that invisible workload that's pulling you down. Are you ready to try Fair Play? Let's deal you in.

A New Coast Jeffrey Peterson,2019-11-26 “This is a timely book... [It] should be mandatory reading... — Minnesota Star Tribune More severe storms and rising seas will inexorably push the American coastline inland with profound impact on

communities, infrastructure, and natural systems. In *A New Coast*, Jeffrey Peterson draws a comprehensive picture of how storms and rising seas will change the coast. Peterson offers a clear-eyed assessment of how governments can work with the private sector and citizens to be better prepared for the coming coastal inundation. Drawing on four decades of experience at the Environmental Protection Agency and the United States Senate, Peterson presents the science behind predictions for coastal impacts. He explains how current policies fall short of what is needed to effectively prepare for these changes and how the Trump Administration has significantly weakened these efforts. While describing how and why the current policies exist, he builds a strong case for a bold, new approach, tackling difficult topics including: how to revise flood insurance and disaster assistance programs; when to step back from the coast rather than build protection structures; how to steer new development away from at-risk areas; and how to finance the transition to a new coast. Key challenges, including how to protect critical infrastructure, ecosystems, and disadvantaged populations, are examined. Ultimately, Peterson offers hope in the form of a framework of new national policies and programs to support local and state governments. He calls for engagement from the private sector and local and national leaders in a “campaign for a new coast.” *A New Coast* is a compelling assessment of the dramatic changes that are coming to America’s coast. Peterson offers insights and strategies for policymakers, planners, and business leaders preparing for the intensifying impacts of climate change along the coast.

Farms with a Future Rebecca Thistlethwaite, 2013-01-10 What makes a farm sustainable and successful? And what special qualities and skills are needed for someone to become a successful farmer? Rebecca Thistlethwaite addresses these and other crucial questions in this uniquely important book, which is a must-read for anyone who aspires to get into farming, or who wants to make their farm business more dynamic, profitable, and, above all, sustainable. Over an entire year, the author and her husband-experienced farmers themselves-took a sabbatical and traveled the length and breadth of the United States to live and work alongside some of the nation's most innovative farmers. Along the way they learned about best practices, and a whole lot about what doesn't work. *Farms with a Future* shares this collective wisdom in an inspirational yet practical manner; it will help beginners avoid many of the common mistakes that first-time farmers make. Just as importantly, it discusses positive ideas that can help make any farm enterprise vibrant and financially profitable. Profiles of more than a dozen representative farms help round out the invaluable information and encourage farmers to embrace their inner entrepreneur. Younger growers, in particular, will benefit by learning about the right stuff from both their peers and longtime experts. This book provides a useful reference for beginning and experienced farmers alike. While many other books address agricultural production, there are very few that talk about business management for long-term sustainability. *Farms with a Future* offers an approachable, colorful take on building a triple-bottom-line farming business.

Women & Power Mary Beard,2017-11-02 An updated edition of the Sunday Times Bestseller Britain's best-known classicist Mary Beard, is also a committed and vocal feminist. With wry wit, she revisits the gender agenda and shows how history has treated powerful women. Her examples range from the classical world to the modern day, from Medusa and Athena to Theresa May and Hillary Clinton. Beard explores the cultural underpinnings of misogyny, considering the public voice of women, our cultural assumptions about women's relationship with power, and how powerful women resist being packaged into a male template. A year on since the advent of #metoo, Beard looks at how the discussions have moved on during this time, and how that intersects with issues of rape and consent, and the stories men tell themselves to support their actions. In trademark Beardian style, using examples ancient and modern, Beard argues, 'it's time for change - and now!' From the author of international bestseller SPQR: A History of Ancient Rome.
