The Encyclopedia of Restaurant Training Lora Arduser, Douglas Robert Brown, 2005 Book & CD-ROM. Training is an investment for the future, the only foundation on which success can be built. Training delivers excellence in product and performance, elevating a good restaurant into a great one. Training will keep the skills of its employees and management sharp. But in no other industry is its absence or presence as obvious as it is in the food service industry. It is hard to find good, qualified employees, and even harder to keep them. In addition, unemployment levels are low, and competition for qualified workers is tough. What's the answer? Training! Constant training and re-enforcement keeps employees and management sharp and focused, and demonstrates the company cares enough to spend time and subsequently money on them. And that's precisely what this encyclopaedic book will do for you -- be your new training manager. The first part of the book will teach you how to develop training programs for food service employees, and how to train the trainer. The book is full of training tips, tactics and how-to's that will show you proper presentation, and how to keep learners motivated both during and after the training. The second part of the book details specific job descriptions and detailed job performance skills for every position in a food service operation, from the general manager to dishwasher. There are study guides and tests for all positions. Some of the positions include General Manager, Kitchen Manager, Server, Dishwasher, Line Cook, Prep Cook, Bus Person, Host/Hostess, Bartender, Wine & Alcohol Service, Kitchen Steward, Food Safety, Employee Safety, Hotel Positions, etc. Specific instructions are provided for using equipment as well.

The Checklist Manifesto Atul Gawande, 2010-04-01 The New York Times bestselling author of *Being Mortal* and *Complications* reveals the surprising power of the ordinary checklist. We live in a world of great and increasing complexity, where even the most expert professionals struggle to master the tasks they face. Longer training, ever more advanced technologies—neither seems to prevent grievous errors. But in a hopeful turn, acclaimed surgeon and writer Atul Gawande finds a remedy in the humblest and simplest of techniques: the checklist. First introduced decades ago by the U.S. Air Force, checklists have enabled pilots to fly aircraft of mind-boggling sophistication. Now innovative checklists are being adopted in hospitals around the world, helping doctors and nurses respond to everything from flu epidemics to avalanches. Even in the immensely complex world of surgery, a simple ninety-second variant has cut the rate of fatalities by more than a third. In riveting stories, Gawande takes us from Austria, where an emergency checklist saved a drowning victim who had spent half an hour underwater, to Michigan, where a cleanliness checklist in intensive care units virtually eliminated a type of deadly hospital infection. He explains how checklists actually work to prompt striking and immediate improvements. And he follows the checklist revolution into fields well beyond medicine, from disaster response to investment banking, skyscraper construction, and businesses of all kinds. An intellectual adventure in which lives are lost and saved and one simple idea makes a tremendous difference, *The Checklist Manifesto* is essential reading for anyone working to get things right.
