Joan Garry's Guide to Nonprofit Leadership Joan Garry, 2017-03-06 Nonprofit leadership is messy. Nonprofits leaders are optimistic by nature. They believe with time, energy, smarts, strategy and sheer will, they can change the world. But as staff or board leader, you know nonprofits present unique challenges. Too many cooks, not enough money, an abundance of passion. It's enough to make you feel overwhelmed and alone. The people you help need you to be successful. But there are so many obstacles: a micromanaging board that doesn't understand its true role; insufficient fundraising and donors who make unreasonable demands; unclear and inconsistent messaging and marketing; a leader who's a star in her sector but a difficult boss... And yet, many nonprofits do thrive. Joan Garry's Guide to Nonprofit Leadership will show you how to do just that. Funny, honest, intensely actionable, and based on her decades of experience, this is the book Joan Garry wishes she had when she led GLAAD out of a financial crisis in 1997. Joan will teach you how to: Build a powerhouse board Create an impressive and sustainable fundraising program Become seen as a 'workplace of choice' Be a compelling public face of your nonprofit This book will renew your passion for your mission and organization, and help you make a bigger difference in the world.

The Soul-Sourced Entrepreneur Christine Kane,2020-11-17 Can you succeed in business when your strength is more about sensitivity than swagger? If you're moved by meaning, more than manipulation? In other words: Can you succeed while still being you? Christine Kane is living proof that the answer is yes. Far too many of us have swallowed the notion that business owners have to be a certain way to be successful—strategy-obsessed, data-driven, and relentlessly aggressive.

Bookstore shelves are lined with guides for entrepreneurs that urge them to Crush it! 10X It! or Unf**k it! Those who aren't crushers or unf**kers of anything are left wondering if something's wrong with them. Like, maybe they're just not cut out for business. A former songwriter and performer, and then founder of Uplevel YOU—a multi-million-dollar business coaching company—Christine Kane shows a new class of entrepreneurs another way. It's time to connect, not crush. In *The Soul-Sourced Entrepreneur*, Kane shares the insights that have helped thousands find success without losing themselves. In these pages, readers will find a practical plan to: Toss out ineffective, old-school goal-setting models. Reframe your intuition and sensitivity as valuable assets, not as flaws to hide. Examine old patterns for clues as to what's been holding you back. Clean up the spaces and distractions draining your energy and power. Learn to confidently trust in your own wisdom. Break free from fear-based decision-making that plagues most businesses. Throughout the book, you'll hear stories from other soul-sourced entrepreneurs, who employ their own reliable, unique set of best practices based as much in intuition and self-awareness as on specific skills and strategies. Forget business as usual. Your business is personal, and in this new era, authenticity, creativity, and sensitivity are what set businesses apart. *The Soul-Sourced Entrepreneur* is your unconventional plan to build the business of your dreams, and being wildly successful by being you.

The Logical Thinking Process H. William Dettmer, 2007-05-24 A major rewrite of Dettmer's classic *Goldratt's Theory of Constraints*, this new edition presents a whole new approach to building and applying logic trees. The logical thinking process referred to in the title is nothing less than a broadly applicable, systems-level approach to policy analysis. Dettmer has streamlined the process of constructing the logic trees while simultaneously ensuring that the results are more logically

sound and closer representations of reality than ever before. He explains an easier, more logically sound way to integrate Current Reality Trees with Evaporating Clouds. His new version of the thinking process retires the Transition Tree in favor of the marriage of a more detailed Prerequisite Tree and critical chain project management. This book contains new examples of logic trees from a variety of real-world applications. Most of the diagrams and illustrations are new and improved. Explanations and procedures for constructing the logic trees are considerably simplified.

Sacred Pathways Gary Thomas, 2020-09-08 Sacred Pathways reveals nine distinct spiritual temperaments--and their strengths, weaknesses, and tendencies--to help you improve your spiritual life and deepen your personal walk with God. It's time to strip away the frustration of a one-size-fits-all spirituality and discover a path of worship that frees you to be you. Experienced spiritual directors, pastors, and church leaders recognize that all of us engage with God differently, and it's about time we do too. In this updated and expanded edition of Sacred Pathways, Gary Thomas details nine spiritual temperaments and--like the Enneagram and other tools do with personality--encourages you to investigate the ways you most naturally express yourself in your relationship with God. He encourages you to dig into the traits, strengths, and pitfalls in your devotional approach so you can eliminate the barriers that keep you locked into rigid methods of worship and praise. Plus, as you begin to identify and understand your own temperament, you'll soon learn about the temperaments that aren't necessarily you but that may help you understand the spiritual tendencies of friends, family, and others around you. Whatever temperament or blend of temperaments best describes you, rest assured it's not by accident. It's by the design of a Creator who knew what he was doing when he made you according to his own unique intentions. If your spiritual walk is not what you'd like it to be, you can change that, starting here. Sacred Pathways will show you the route you were made to travel, marked by growth and filled with the riches of a close walk with God. A Sacred Pathways video Bible study is also available for group or individual use, sold separately.

Moose on the Table Jim Clemmer, 2007-10 Failed communications are crippling workplaces across the globe - sapping energy from staff and weakening entire organizations. In this edutaining organizational fable, you'll get realistic scenarios and solutions, showing how individuals and organizations should address issues that cost organizations millions or even billions of dollars in wasted effort every year. ...most will recognize the real frustrations and challenges of a corporation, and a life, trying to pull itself back from disaster. I found myself thinking about my actions, or lack thereof, in similar situations from my past and wondering if I, too, could overcome my fear of moose on the table and lead change. Easy and fun to read, *Moose on the Table* might be just the tale for those about to embark on a quest for change in their own lives or organizations. Laurie Blake, Editor Workplace magazine I just finished reading your book, *Moose on the Table: A Novel Approach to Communications @ Work*. I honestly couldn't put it down! I loved the book and the storyline. The characters are so true to life. I'm sure there are a lot of people out there who can seriously identify with one or more of these characters and situations. You hit the nail on the head (or should I say Moose head) and drove the message home. After reading the book, it has encouraged me to find my moose, work more effectively and have more courageous conversations with not only my own team but top management team members as well. No more going along to get along...that's not the kind of life I want to lead! Belinda Pianezza, Product Manager HR.com
