The Coaching Effect Bill Eckstrom, Sarah Wirth, 2019-04-02 The most effective leader behaves more like a coach. Authors Bill Eckstrom and Sarah Wirth have spent a decade researching the activities, behaviors, and performance of leaders. After studying more than 100,000 coaching interactions in the workplace, primarily of sales teams, they have been able to determine how coaching affects team outcomes and growth. The authors share three critical performance drivers, along with the four high-growth activities that coaches must execute to build a team that is motivated to achieve at the highest levels. Through both hard data and rich stories, Eckstrom and Wirth demonstrate how leaders can measure and improve their coaching to lead their teams to better results. The Coaching Effect will help leaders at all levels understand the necessity of challenging people out of their comfort zone to create a high-growth organization. Leaders will learn how they can develop trust relationships, drive accountability and leverage growth experiences to propel their team members to the highest levels of success.

Practical Research Paul D. Leedy, Jeanne Ellis Ormrod, 2013-07-30 For undergraduate or graduate courses that include planning, conducting, and evaluating research. A do-it-yourself, understand-it-yourself manual designed to help students understand the fundamental structure of research and the methodical process that leads to valid, reliable results. Written in uncommonly engaging and elegant prose, this text guides the reader, step-by-step, from the selection of a problem, through the process of conducting authentic research, to the preparation of a completed report, with practical suggestions based on a solid theoretical framework and sound pedagogy. Suitable as the core text in any introductory research course or even for self-instruction, this text will show students two things: 1) that quality research demands planning and design; and, 2) how their own research projects can be executed effectively and professionally.

Behind the Shutter Salvatore Cincotta, 2012 Today's photography studios are faced with many challenges, including

technological advances and the changing economy. As Salvatore Cincotta reveals in *Behind the Shutter*, businesses must look to the future and adjust their business plans accordingly in order to continue successfully. From establishing a foundational business plan, to building a brand, enhancing the services and products on offer and marketing effectively to potential and existing clients, *Behind the Shutter* covers everything it takes to succeed.

Building Design for Wind Forces: A Guide to ASCE 7-16 Standards Rima Taher,2018-08-24 Expert coverage of ASCE 7-16-compliant, wind-resistant engineering methods for safer, sounder low-rise and standard multi-story buildings Using the hands-on information contained in this comprehensive engineering guide you will be able to design and construct safer buildings that will better withstand extreme wind forces. Written by a recognized structural design expert, the book explains the general concepts and principles involved in the design of buildings and structures for wind forces. Structural systems used to resist wind forces are outlined and explained, in the context of both low-rise and high-rise buildings. *Building Design for Wind Forces* provides easy-to-follow summaries of complex ASCE 7-16 wind load provisions and shows how to apply the corresponding design procedures using practical examples. A detailed discussion of typical structural damage caused by extreme wind events such as hurricanes and tornadoes is presented along with design recommendations. Current wind engineering activities and recent research developments are discussed, and a general overview of wind tunnel procedures and an introduction to the concept of database-assisted design (DAD) is provided. *Building Design for Wind Forces* covers: •Wind forces and wind effects on buildings and structures •Wind load provisions of the ASCE 7-16 standard •Damage to structures caused by extreme wind events •Wind engineering activities and research trends •Structural systems for lateral loads •Tall buildings •Wind design procedures and wind load parameters •Wind loads on the Main Wind Force Resisting System (MWFRS) •Wind loads on Components and Cladding (C&C) •Wind loads on building appurtenances and other structures •Wind tunnels and the wind tunnel procedure •Database-assisted design (DAD)
