The Travels of a T-Shirt in the Global Economy Pietra Rivoli, 2005-04-01 Praise for THE TRAVELS OF A T-SHIRT IN THE GLOBAL ECONOMY Engrossing . . . (Rivoli) goes wherever the T-shirt goes, and there are surprises around every corner . . . full of memorable characters and vivid scenes. —Time An engaging and illuminating saga. . . Rivoli follows her T-shirt along its route, but that is like saying that Melville follows his whale. . . Her nuanced and fair-minded approach is all the more powerful for eschewing the pretense of ideological absolutism, and her telescopic look through a single industry has all the makings of an economics classic. —The New York Times Rarely is a business book so well written that one would gladly stay up all night to finish it. Pietra Rivoli's *The Travels of a T-Shirt in the Global Economy* is just such a page-turner. —CIO magazine Succeeds admirably . . . T-shirts may not have changed the world, but their story is a useful account of how free trade and protectionism certainly have. —Financial Times [A] fascinating exploration of the history, economics, and politics of world trade . . . *The Travels of a T-Shirt in the Global Economy* is a thought-provoking yarn that exhibits the ugly, the bad, and the good of globalization, and points to the unintended positive consequences of the clash between proponents and opponents of free trade. —Star-Telegram (Fort Worth) Part travelogue, part history, and part economics, *The Travels of a T-Shirt in the Global Economy* is ALL storytelling, and in the grand style. A must-read. —Peter J. Dougherty, Senior Economics Editor, Princeton University Press author of *Who's Afraid of Adam Smith?* A readable and evenhanded treatment of the complexities of free trade . . . As Rivoli repeatedly makes clear, there is absolutely nothing free about free trade except the slogan. —San Francisco Chronicle

A Cultural History of Shopping in Antiquity Mary Harlow, Ray Laurence, 2022-06-02 *A Cultural History of Shopping* was a Library Journal Best in Reference selection for 2022. Covering the period from 500 BCE to 500 CE, this is the first book to address the cultural history of shoppers and shopping in antiquity. Evidence for the existence of shops has been found across many archaeological sites in Europe, North Africa, and the Middle East but the study of shops and retailing in antiquity is a relatively new subject. From Classical Greece through to the Late Roman Empire, shopping shifted from being a means to an end - a method of supplementing the family diet or providing material goods the household could not manufacture itself - to a form of experience where the processes of browsing and not purchasing became as important as

buying. This dramatic transformation is a reflection of the changing material desires of these societies and their perspectives on the ways in which the fulfilment of those desires could be achieved. Recurring themes in this interdisciplinary volume include the lives of 'ordinary' people; the relationship between gender and shopping; the contrast between Greece and Rome; the attitudes towards shopkeepers; the placing of shops in the cityscape; and the zoning of particular crafts and products. A Cultural History of Shopping in Antiquity presents an overview of the period with themes addressing practices and processes; spaces and places; shoppers and identities; luxury and everyday; home and family; visual and literary representations; reputation, trust and credit; and governance, regulation and the state.

Willful Child Steven Erikson, 2014-11-04 From the New York Times Bestselling author Steven Erikson comes a new science fiction novel of devil-may-care, near calamitous and downright chaotic adventures through the infinite vastness of interstellar space. These are the voyages of the starship A.S.F. Willful Child. Its ongoing mission: to seek out strange new

worlds on which to plant the Terran flag, to subjugate and if necessary obliterate new life-forms, to boldly blow the... And so we join the not-terribly-bright but exceedingly cock-sure Captain Hadrian Sawback and his motley crew on board the Starship Willful Child for a series of devil-may-care, near-calamitous and downright chaotic adventures through 'the infinite vastness of interstellar space.' The New York Times bestselling author of the acclaimed Malazan Book of the Fallen sequence has taken his lifelong passion for Star Trek and transformed it into a smart, inventive, and hugely entertaining spoof on the whole mankind-exploring-space-for-the-good-of-all-species-but-trashing-stuff-with-a-lot-of-high-tech-gadgets-along-the-way, overblown adventure. The result is an SF novel that deftly parodies the genre while also paying fond homage to it. Bringing French to Life Catherine Watts, Hilary Phillips, 2014-10-17 Bringing French to Life provides an innovative and refreshing cross-curricular approach to teaching languages in primary schools, combining art, design and foreign languages with various aspects of the National Primary Curriculum such as Literacy, Numeracy and PE. This unique practical resource comprises an engaging storyline about a day in the life of two French children and gives an opportunity for learners to re-enact their day, using finger puppets, handmade crafts and exciting games to practise new language. Each of the 14 sections begins with a short accessible dialogue in French and is followed by suggestions for using the new vocabulary in pairs, small groups or as a whole class. The main story is accompanied by fun craft activities linked to the story (one for each section, ie 14 in total) for children to create in class using the templates and instructions provided. A wide range of further activities follows, consisting of lively games, songs and opportunities to communicate simple ideas. Language extensions are suggested, focussing on imaginative writing and reading ideas linked to the theme of each section. Written to support the new foreign languages programme of study the book also includes: * Cross-curricular links to numerous subjects including Literacy, Numeracy, PE and ICT * Classroom games and activities * Photocopiable resources and templates for fun classroom activities and projects * Language extension activities. Bringing French to Life can be read on three levels to suit a variety of classroom situations. First, the story can be told 'straight' with the whole class participating in the dialogues. Second, the story can be combined with the craft activities after each main section. 14 doing and making activities match the storyline and provide a colourful, eye catching display and learning focus in the classroom or for Open Days or Assemblies. Teachers can use as many or as few as they wish. The resultant crafts can be used for very effective classroom displays/open days/assemblies etc. Finally, the language extension activities can be used alongside the art/craft/design activities as desired. The aim of these activities is to extend the target language in a relevant context through a variety of methods such as songs,

playlets, simple communicative exchanges, games with numbers etc.

More Than Words John Warner,2025-02-04 A veteran writing teacher makes a “moving” (Rick Wormeli) argument that writing is a form of thinking and feeling and shows why it can’t be replaced by AI In the age of artificial intelligence, drafting an essay is as simple as typing a prompt and pressing enter. What does this mean for the art of writing? According to longtime writing teacher John Warner: not very much. More Than Words argues that generative AI programs like ChatGPT not only can kill the student essay but should, since these assignments don’t challenge students to do the real work of writing. To Warner, writing is thinking—discovering your ideas while trying to capture them on a page—and feeling—grappling with what it fundamentally means to be human. The fact that we ask students to complete so many assignments that a machine could do is a sign that something has gone very wrong with writing instruction. More Than Words calls for us to use AI as an opportunity to reckon with how we work with words—and how all of us should rethink our relationship with writing.
