Gender and Popular Visual Culture in India Francis P. Barclay, Kaifia Ancer Laskar, 2023-11-03 Perhaps, male-mindedness seems to have adapted to changing-contemporary circumstances to become more covert and conspiratorial. Sexist suggestions—through objectification and substantiated subordination—for instance, may have been explicit in Indian media a decade earlier. But in the contemporary times of online social media and vociferous feminism, such openness of unfairness against women in the media will, more often than not, be met with strife and unpalatable backlash—fearing which blatant prejudice is prudently steered clear of. It is, hence, understandable that patriarchy, to sustain itself as a culture, has adapted to become more benevolent in an increasingly hostile environment. To identify such sly and stealthy sexism embedded in media content, one may need a reconfigured grasp of contemporary feminist issues and an altered nuance for isolation and identification of discriminatory depictions. This book exposes redefined and hidden sexism that predominates the popular visual culture of India—particularly investigating mass and new media representations that are a prime part of and have a domineering effect on the ensemble of popular visual culture—and characterises contemporary feminist

movements. It binds a collection of contemporary Indian case studies of sexism and feminism encompassing communication media such as print, cinema, television, Web series and social media. There is a lack of book titles that study media sexism in the present times, and the proposed book aims to explore an unexplored area that is of social and scholarly importance. This book highlights the duality of media platforms: while media is a critical tool associated with fourth-wave feminism, they still remain to be a deterrent to the development of women engendering inherent and age-old patriarchal notions. This book will be an eye-opener to the general readers about benevolent sexism and train them to identify sexism hidden in seemingly pro-women media representations.

The Science of Middle-earth Roland Lehoucq, Loic Mangin, Jean-Sebastien Steyer, 2021-04-06 The surprising and illuminating look at how Tolkien's love of science and natural history shaped the creation of his Middle Earth, from its flora and fauna to its landscapes. The world J.R.R. Tolkien created is one of the most beloved in all of literature, and continues to capture hearts and imaginations around the world. From Oxford to ComiCon, the Middle Earth is analyzed and interpreted through a multitude of perspectives. But one essential facet of Tolkien and his Middle Earth has been overlooked: science. This great writer, creator of worlds and unforgettable character, and inventor of language was also a scientific autodidact, with an innate interest and grasp of botany, paleontologist and geologist, with additional passions for archeology and chemistry. Tolkien was an acute observer of flora and fauna and mined the minds of his scientific friends about ocean currents and volcanoes. It is these layers science that give his imaginary universe—and the creatures and characters that inhabit it—such concreteness. Within this gorgeously illustrated edition, a range of scientists—from astrophysicists to physicians, botanists to volcanologists—explore Tolkien's novels, poems, and letters to reveal their fascinating scientific roots. A rewarding combination of literary exploration and scientific discovery, *The Science of Middle Earth* reveals the hidden meaning of the Ring's corruption, why Hobbits have big feet, the origins of the Dwarves, the animals which inspired the dragons, and even whether or not an Ent is possible. Enhanced by superb original drawings, this transportive work will delight both Tolkien fans and science lovers and inspire us to view both Middle Earth—and our own world—with fresh eyes.

Viral Discourse Rodney H. Jones, 2021-03-11 This Element consists of ten short pieces written by prominent discourse

analysts in the midst of the COVID-19 pandemic. Each piece focuses on a different aspect of the pandemic, from the debate over wearing face masks to the metaphors used by politicians and journalists in different countries to talk about the virus. Each of the pieces also makes use of a different approach to analysing discourse (e.g. Critical Discourse Analysis, Genre Analysis, Corpus Assisted Discourse Analysis) and demonstrates how that approach can be applied to a small set of data. The aim of the Element is to show how the range of tools available to discourse analysts can be brought to bear on a pressing, 'real-world' problem, and how discourse analysis can contribute to formulating 'real-world' solutions to the problem.

Autotheory as Feminist Practice in Art, Writing, and Criticism Lauren Fournier, 2021-02-23 Autotheory--the commingling of theory and philosophy with autobiography--as a mode of critical artistic practice indebted to feminist writing and activism. In the 2010s, the term autotheory began to trend in literary spheres, where it was used to describe books in which memoir and autobiography fused with theory and philosophy. In this book, Lauren Fournier extends the meaning of the term, applying it to other disciplines and practices. Fournier provides a long-awaited account of autotheory, situating it as a mode of contemporary, post-1960s artistic practice that is indebted to feminist writing, art, and activism. Investigating a series of works by writers and artists including Chris Kraus and Adrian Piper, she considers the politics, aesthetics, and ethics of autotheory.

Cannabis Lucas Richert,Jim Mills,2021-08-03 Cannabis consumption, commerce, and control in global history, from the nineteenth century to the present day. This book gathers together authors from the new wave of cannabis histories that has emerged in recent decades. It offers case studies from Africa, Asia, the Americas, Europe, and the Middle East. It does so to trace a global history of the plant and its preparations, arguing that Western colonialism shaped and disseminated ideas in the nineteenth century that came to drive the international control regimes of the twentieth. More recently, the emergence of commercial interests in cannabis has been central to the challenges that have undermined that cannabis consensus. Throughout, the determination of people around the world to consume substances made from the plant has defied efforts to stamp them out and often transformed the politics and cultures of using them. These texts also suggest that globalization might have a cannabis history. The migration of consumers, the clandestine networks established to supply them, and international cooperation on control may have driven much of the interconnectedness that is a key feature of the contemporary world.

The Two Thousand Yard Stare Brendan M. Greeley, 2008 El Paso artist Tom Lea was commissioned by Life Magazine to paint the war as it was being experienced by U.S. and Allied soldiers, sailors, and airmen. Along with his sketchbook, Lea carried on these assignments his record of work, a notebook in which he recorded observations and details on the images he hoped to create from the events he had seen. Brendan M. Greeley, Jr. has collected virtually all of Tom Lea's firsthand accounts of his assignments for Life, along with his powerful sketches and unforgettable paintings, and placed them in context, along with photographs and research focusing on the people, places, and wartime events encountered by Tom Lea. Drawing on previously unpublished sources - the artist's diary, letters to the Texas historian J. Frank. Dobie, oral interviews, and archival materials from Texas and national collections - Greeley presents in *The Two Thousand Yard Stare* a uniquely comprehensive and sustained treatment of Lea's creative accomplishments during World War II. This well-documented and astonishingly illustrated volume will fascinate those interested in the realistic depiction of war, in both images and words. Also a must-read for students, scholars, and collectors of the artist's work, *The Two Thousand Yard Stare: Tom Lea's World War II* is a brilliant compendium of the work and thought of one of America's most compelling painters and writers.--BOOK JACKET.

Since the very dawn of man, legends have been told of the conflict between angel and demon-kind. Lam Lyle, a woman of science, dismissed these stories as just that — fiction. But when the loss of a loved one leads to the discovery of a hulking, benevolent demon named Gus, Lam realizes that her life is about to undergo a dire new direction. With a newfound partner and awesome powers now at her disposal, our hero suddenly finds herself thrust into a climactic war of good and evil with no less than the fate of the world hanging in the balance... Includes sketch material and original scripts.

You're Plant Food! R. L. Stine, 2001 Your school trip to the Botanical Gardens turns out to be a bit more thrilling than you bargained for. But your seriously square teacher has offered a prize for the best report so you've got to find out something really cool. Don't worry there's plenty to write about - that man-eating turtle in the tropical zone, for example, or the very large, strangely human trees playing video games in the basement!

(Mis)Understanding Political Participation Jeffrey Wimmer, Cornelia Wallner, Rainer Winter, Karoline Oelsner, 2017-12-15 The practices of participation and engagement are characterised by complexities and contradictions. All celebratory examples of uses of social media, e.g. in the Arab spring, the Occupy movement or in recent LGBTQ protests, are deeply rooted in human practices. Because of this connection, every case of mediated participation should be perceived as highly contextual and cannot be attributed to one (social) specific media logic, necessitating detailed empirical studies to

investigate the different contexts of political and civic engagement. In this volume, the theoretical chapters discuss analytical frameworks that can enrich our understanding of current contexts and practices of mediated participation. The empirical studies explore the implications of the new digital conditions for the ways in which digitally mediated social interactions, practices and environments shape everyday participation, engagement or protest and their subjective as well societal meaning.
