The Happy Kitchen: Good Mood Food Rachel Kelly, Alice Mackintosh, 2017-03-01 Did you know that your gut is responsible for producing around 90% of your serotonin, the chemical which makes you feel good? The Happy Kitchen is a joyous bible of good mood food, packed with recipes and meal planners to keep us calm, boost energy and help us sleep. Since suffering her last serious bout of depression in 2011, Rachel Kelly has evolved a broad holistic approach to staying

well, but at the heart of her recovery has been changing the way she eats. Over the past five years, she has worked with nutritionist and food doctor Alice Mackintosh. Together, they have built up a repertoire of recipes that target particular symptoms, from insomnia and mood swings to stress and exhaustion. In chapters ranging from Steady Energy and Beating the Blues to Finding Comfort, they put all the theory into practice, setting out how you can incorporate it into your daily life. Along with delicious new recipes and meal planners, there is a toolkit of Super Good Mood Foods, as well as 'Science Bites' scattered through the text in which Alice explains the biology and chemistry of nutrition. When you're feeling fragile it can be hard to overhaul your diet; it is one more thing on your 'to do' list. But as Rachel has learnt, it is small steps that make a difference. Alice's recipes are easy to follow, and soothe and gladden the soul. Follow their advice, and without trying, you too will, week by week, begin to feel stronger and happier.

Make Time Jake Knapp, John Zeratsky, 2018-09-25 From the New York Times bestselling authors of Sprint comes "a unique and engaging read about a proven habit framework [that] readers can apply to each day" (Insider, Best Books to Form New Habits). "If you want to achieve more (without going nuts), read this book."—Charles Duhigg, author of The Power of Habit Nobody ever looked at an empty calendar and said, The best way to spend this time is by cramming it full of meetings! or got to work in the morning and thought, Today I'll spend hours on Facebook! Yet that's exactly what we do. Why? In a world where information refreshes endlessly and the workday feels like a race to react to other people's priorities faster, frazzled and distracted has become our default position. But what if the exhaustion of constant busyness wasn't mandatory? What if you could step off the hamster wheel and start taking control of your time and attention? That's what this book is about. As creators of Google Ventures' renowned design sprint, Jake and John have helped hundreds of teams solve important problems by changing how they work. Building on the success of these sprints and their experience designing ubiquitous tech products from Gmail to YouTube, they spent years experimenting with their own habits and routines, looking for ways to help people optimize their energy, focus, and time. Now they've packaged the most effective tactics into a fourstep daily framework that anyone can use to systematically design their days. Make Time is not a one-size-fits-all formula. Instead, it offers a customizable menu of bite-size tips and strategies that can be tailored to individual habits and lifestyles. Make Time isn't about productivity, or checking off more to-dos. Nor does it propose unrealistic solutions like throwing out your smartphone or swearing off social media. Making time isn't about radically overhauling your lifestyle; it's about making small shifts in your environment to liberate yourself from constant busyness and distraction. A must-read for anyone who has ever thought, If only there were more hours in the day..., Make Time will help you stop passively reacting to the demands of the modern world and start intentionally making time for the things that matter.

Pandemic! Slavoj Zizek,2020-05-20 As an unprecedented global pandemic sweeps the planet, who better than the supercharged Slovenian philosopher Slavoj Žižek to uncover its deeper meanings, marvel at its mind-boggling paradoxes and speculate on the profundity of its consequences? We live in a moment when the greatest act of love is to stay distant from the object of your affection. When governments renowned for ruthless cuts in public spending can suddenly conjure up trillions. When toilet paper becomes a commodity as precious as diamonds. And when, according to Žižek, a new form of communism – the outlines of which can already be seen in the very heartlands of neoliberalism – may be the only way of averting a descent into global barbarism. Written with his customary brio and love of analogies in popular culture (Quentin Tarantino and H. G. Wells sit next to Hegel and Marx), Žižek provides a concise and provocative snapshot of the crisis as it widens, engulfing us all.

Wallet Activism Tanja Hester, 2021-11-16 2022 NATIONAL INDIE EXCELLENCE AWARDS FINALIST — SOCIAL/POLITICAL CHANGE 2022 ASJA ANNUAL WRITING AWARD WINNER — SERVICE 2022 NAUTILUS BOOK AWARDS GOLD MEDALIST — SOCIAL CHANGE & SOCIAL JUSTICE 2022 AXIOM BUSINESS BOOK AWARD GOLD MEDALIST — PHILANTHROPY/NONPROFIT/SUSTAINABILITY How do we vote with our dollars, not just to make ourselves feel good, but to make a real difference? Wallet Activism challenges you to rethink your financial power so can feel confident spending, earning, and saving money in ways that align with your values. While we call the American system a democracy, capitalism is the far more powerful force in our lives. The greatest power we have—especially when political leaders won't move quickly enough—is how we use our money: where we shop, what we buy, where we live, what institutions we entrust with our money, who we work for, and where we donate determines the trajectory of our society and our planet. While our votes and voices are essential, too, Wallet Activism helps you use your money for real impact. It can feel overwhelming to determine "the right way" to spend: a choice that might seem beneficial to the environment may have unintended consequences that hurt people. And marketers are constantly lying to you, making it hard to know what choice is best. Wallet Activism empowers us to vote with our wallets by making sense of all the information coming at us, and teaching us to cultivate a more holistic mindset that considers the complex, interrelated ecosystems of people and the planet together, not as opposing forces. From Tanja Hester, Our Next Life blogger and author of Work Optional, comes the mindset-shifting guide to help you put your money where your values are. Wallet Activism is not a list of dos and don'ts that will soon become outdated, nor does it call for anti-consumerist perfection. Instead, it goes beyond simple purchasing decisions to explore: The

impacts a financial decision can have across society and the environment How to create a personal spending philosophy based on your values Practical questions to quickly assess the "goodness" of a product or an entity you may buy from The ethics of earning money, choosing what foods to eat, employing others, investing responsibly, choosing where to live, and giving money away For anyone interested in leaving the world better than you found it, Wallet Activism helps you build habits that will make your money matter.

Inside the Box Drew Boyd, Jacob Goldenberg, 2013-06-11 "The 'inside-the-box approach' can reveal key opportunities for innovation that are hiding in plain sight" (Daniel H. Pink, author of Drive). The traditional attitude toward creativity in the American business world is to "think outside the box"—to brainstorm without restraint in hopes of coming up with a breakthrough idea, often in moments of crisis. Sometimes it works, but it's a problem-specific solution that does nothing to engender creative thinking more generally. Inside the Box demonstrates Systematic Inventive Thinking (SIT), which systemizes creativity as part of the corporate culture. This counterintuitive and powerfully effective approach to creativity requires thinking inside the box, working in one's familiar world to create new ideas independent of specific problems. SIT's techniques and principles have instilled creative thinking into such companies as Procter & Gamble, Johnson & Johnson, and other industry leaders. Inside the Box shows how corporations have successfully used SIT in business settings as diverse as medicine, technology, new product development, and food packaging. Dozens of books discuss how to make creative thinking part of a corporate culture, but none takes the innovative and unconventional approach of Inside the Box. With "inside the box" thinking, companies of any size can become sufficiently creative to solve problems even before they develop and to innovate on an ongoing basis. It's a system that works! "Boyd and Goldenberg explain the basic building blocks for creativity and by doing so help all of us better express our potential" (Dan Ariely, author of Predictably Irrational).

Exile Belén Fernández,2019-06-27 Che Guevara left Argentina at 22. At 21, Belén Fernández left the U.S. and didn't look back. Alone, far off the beaten path in places like Syria and Tajikistan, she reflects on what it means to be an American in a largely American-made mess of a world. After growing up in Washington, D.C. and Texas, and then attending Columbia University in New York, Belén Fernández ended up in a state of self-imposed exile from the United States. From trekking—through Europe, the Middle East, Morocco, and Latin America—to packing avocados in southern Spain, to close encounters with a variety of unpredictable men, to witnessing the violent aftermath of the 2009 coup in Honduras, the international travel allowed her by an American passport has, ironically, given her a direct view of the devastating consequences of U.S. machinations worldwide. For some years Fernández survived thanks to the generosity of strangers who picked her up hitchhiking, fed her, and offered accommodations; then she discovered people would pay her for her powerful, unfiltered journalism, enabling—as of the present moment—continued survival. In just a few short years of publishing her observations on world politics and writing from places as varied as Lebanon, Italy, Uzbekistan, Syria, Mexico, Turkey, Honduras, and Iran, Belén Fernández has established herself as a one of the most trenchant observers of America's interventions around the world, following in the footsteps of great foreign correspondents such as Martha Gellhorn and Susan Sontag.

Autonomy, Consent and the Law Sheila A.M. McLean, 2009-09-10 The notion that consent based on the concept of autonomy, underpins a good or beneficent medical intervention is deeply rooted in the jurisprudence of most countries throughout the world. Autonomy, Consent and the Law examines these notions in the UK, Australia and the US, and critiques the way in which autonomy and consent are treated in bioethics and law.
