Building PowerPoint Templates Step by Step with the Experts Echo Swinford,Julie Terberg,2012-09-28 Building PowerPointTemplates Supercharge your PowerPoint® presentations with custom templates and themes! Want to create presentations that are more consistent and cost-effective? Presentations that fully reflect your branding? Then don't settle for Microsoft's "out-of-the-box" templates and themes: create your own! In this easy, hands-on guide, two PowerPoint MVPs teach you every skill and technique you'll need to build the perfect template–from planning and design, through theme building, custom layouts, colors, and deployment. Echo Swinford and Julie Terberg have distilled their immense PowerPoint knowledge into simple, step-by-step techniques you can use right now, whether you're using PowerPoint 2010 or 2007 for Windows, or PowerPoint 2011 for Mac. Well-built templates are the backbone of great presentations—whether building them for your own use or designing for thousands of users, this book will guide you through the process of creating the most effective templates. Important Note: Upgrading from older versions of PowerPoint, such as PowerPoint 2003? Your old templates may no longer work. This book will help you make the transition painlessly! • Plan new templates and themes to maximize their business value for years to come • Understand the differences between templates and themes, and how they work together • Make better choices about color, fonts, and slide layouts • Create efficient templates for individual users, teams, and large organizations • Incorporate Notes and Handout Masters into your presentation templates • Provide example slides and default settings that lead to better presentations • Use Microsoft's little-known Theme Builder to create effects and background styles • Work around hidden quirks in PowerPoint's advanced template and theme features Echo Swinford, a Microsoft PowerPoint MVP since 2000, has been a featured speaker at the Presentatio Summit (formerly PowerPoint Live) since its inception. She is the expert voice and instructor behind PowerPoint 2010 LiveLessons (Video Training), the author of Fixing PowerPoint Annoyances and co-author of The PowerPoint 2007 Complete Makeover Kit. Julie Terberg is a Microsoft PowerPoint MVP and featured speaker at the Presentation Summit. She is the owner of Terberg Design and has been designing presentations since the mid-1980s. She is co-author of Perfect Medical Presentations. As contributing author for Presentations Magazine, she won awards for her Creative Techniques columns.

the topic that focus on the wrong skills or read like boring technical manuals, this lighthearted book avoids jargon and provides useful information about the practical realities of creating materials in this popular application. It addresses common user concerns, such as turning facts and data into compelling visual images, generating concise project updates, creating presentation decks to be emailed or reviewed over the phone, and finding useful PowerPoint examples with minimal research. With accessible language and 50 color illustrations, the book efficiently explains how to translate ideas into sleek presentations.

The Raven (Illustrated) Edgar Allan Poe,2013-09-13 This Top Five Classics illustrated edition of Edgar Allan Poe's The Raven includes: • All 25 illustrations by Gustave Doré for Harper & Brothers' 1884 edition • An informative Introduction • A detailed Biography of Edgar Allan Poe • The illustrated version and text-only version of the full poem No poem has ever received the kind of immediate and overwhelming response that Poe's "The Raven" did when it first appeared in the New York Evening Mirror on January 29, 1845. It made Poe an overnight sensation (though his great fame never brought him much wealth) and the poem, a powerfully haunting elegy to lost love, remains one of the most beloved and recognizable verses in the English language. The illustrations that accompany this Top Five Classics edition are reproductions of the renowned French artist Gustave Doré's steel-plate engravings created for Harper & Brothers' 1884 release of The Raven. It would be Doré's last commission as he died shortly after completing the 25 illustrations in January 1883. His illustrations would become famous in their own right, evoking as they do the lyrical and mystical air of Poe's masterpiece.

The Four Scott Galloway,2017-10-03 NEW YORK TIMES BESTSELLER USA TODAY BESTSELLER Amazon, Apple, Facebook, and Google are the four most influential companies on the planet. Just about everyone thinks they know how they got there. Just about everyone is wrong. For all that's been written about the Four over the last two decades, no one has captured their power and staggering success as insightfully as Scott Galloway. Instead of buying the myths these companies broadcast, Galloway asks fundamental questions. How did the Four infiltrate our lives so completely that they're almost impossible to avoid (or boycott)? Why does the stock market forgive them for sins that would destroy other firms? And as they race to become the world's first trillion-dollar company, can anyone challenge them? In the same irreverent style that has made him one of the world's most celebrated business professors, Galloway deconstructs the strategies of the Four that lurk beneath their shiny veneers. He shows how they manipulate the fundamental emotional needs that have driven us since our ancestors lived in caves, at a speed and scope others can't match. And he reveals how you can apply the lessons of their ascent to your own business or career. Whether you want to compete with them, do business with them, or simply live in the world they dominate, you need to understand the Four.
