Sports Illustrated Derek Jeter Sports Illustrated, 2021-07-20 Celebrating a New York icon and one of baseball's most beloved superstars Derek Jeter made his major-league debut at age 20 in 1995. The following year, he earned Rookie of the Year honors as the starting shortstop as the Yankees won the team's first championship since 1978. Over the next two decades, Jeter kept hitting and the Yankees kept winning. By the time he hung up his pinstripes at the end of the 2014 season, the Yankee captain had collected five World Series rings and 3,465 hits. He was named to 14 American League All-Star teams and boasts a .321 career batting average in the World Series. It was no surprise when Jeter was elected to the Baseball Hall of Fame in his first year of eligibility in 2020, receiving more than 99% of the vote. In celebration of Jeter's induction in Cooperstown in 2021, these moments and memories are collected in *Derek Jeter: A Celebration of the Yankee Captain*, a fully illustrated gift book commemorating the career of the most beloved Yankee of his generation. Featuring more than 100 photographs and unparalleled written coverage from the pages of Sports Illustrated, this new volume provides readers a complete portrait of the ultimate team player who became a role model and a baseball icon—from earning the Yankees starting shortstop job in spring training in 1996 to his record-setting postseason play and his walk-off single in his final game at Yankee Stadium. This lavish keepsake also features Sports Illustrated's best written coverage of Jeter's career, including pieces by Tom Verducci, Joe Posnanski, Michael Silver, and more.

Touch in Sports Coaching and Physical Education Heather Piper, 2014-08-07 In our increasingly risk-averse society, touch and touching behaviours between professionals and children have become a fraught issue. In sports coaching and physical education, touching young sports performers and participants has, in some contexts, come to be redefined as dubious and dangerous. Coaches find themselves operating in a framework of regulations and guidelines that create anxiety, for them and others, and for many volunteer (and sometimes professional) coaches, this fearful context has led them to question the risks and benefits of their continuing involvement in sport. *Touch in Sports Coaching and Physical Education* is the first book to explore this difficult topic in detail. Drawing on a series of international studies from the US, UK, Australia, Canada, Sweden

and elsewhere, it presents important new research evidence and examines theories of risk and moral panic that frame the discussion. By challenging prevailing orthodoxies the book makes a significant contribution to critical discussion around practice, pedagogy, politics and policy in sport and physical education, and also informs current debates around the nature and quality of all in loco parentis relationships.

The US Sports Film: A Genre of American Dream Time Danny Gronmaier, 2022-12-05 Sports and film are media that create time. They are temporal not only in the sense that they are defined and regulated by certain temporalities as a result of processes of social negotiation, but also in the sense of modulating and intervening in these processes in the first place. They are determined by multiple temporalities referring to and aligning along perceptual corporeality; but at the same time, they also produce time through and along temporalities of bodily expression and perception. Thus, as much as we perceive and understand sports and film by means of our culturally coded conceptions of time, this comprehension is itself already the product of these media's fabrication and modulation of certain audiovisual imaginations of time. This book examines these imaginations with regard to US team sports feature films, understanding the former as the latter's constitutive conflict which makes these films graspable as a genre in the first place. By addressing temporality as an ever-new crystallization of a heroic past and an unattainable future in a saturated yet volatile present, this conflict connects substantially to the American Dream as an idea of community-building historicity. Departing from a non-taxonomic approach in genre theory and such philosophical recognition of the American Dream as less an ideological narrative but more a social and socially effective imaginary embedded in an audiovisual discourse of time, this book demonstrates the interrelation of sports, cinema and "American" subjectivization along close readings of the poetics of affect of five exemplary sports films (FIELD OF DREAMS, WE ARE MARSHALL, KNUTE ROCKNE ALL AMERICAN, JIM THORPE - ALL-AMERICAN, MIRACLE).
