A growing number of voices are pointing at hurry, or busyness as a root of much evil. Within the pages of this book, you'll find a compelling emotional and spiritual case against hurry and in favour of a slower, simpler way of life.

*Living and Sustaining a Creative Life* Sharon Loudon,2013 In this day and age, when art has become more of a commodity and art school graduates are convinced that they can only make a living from their work by attaining gallery representation, it is more important than ever to show the reality of how a professional, contemporary artist sustains a creative practice over time. The forty essays collected in *Living and Sustaining a Creative Life* are written in the artists' own voices and take the form of narratives, statements, and interviews. Each story is different and unique, but the common

thread is an ongoing commitment to creativity, inside and outside the studio. Both day-to-day and big picture details are revealed, showing how it is possible to sustain a creative practice that contributes to the ongoing dialogue in contemporary art. These stories will inform and inspire any student, young artist, and art enthusiast and will help redefine what success means to a professional artist.

Revising Moves Christina LaVecchia, Allison Carr, Laura Micciche, Hannah Rule, Jayne Stone, 2024-04-22 Revision sometimes seems more metaphor than real, having been variously described as a stage, an act of goal setting, a method of correction, a process of discovery, a form of resistance. *Revising Moves* makes a significant contribution to writing theory by collecting stories of revision that honor revision's vitality and immerse readers in rooms, life circumstances, and scenes where revision comes to life. In these narrative-driven essays written by a wide range of writing professionals, *Revising Moves* describes revision as a messy, generative, and often collaborative act. These meditations reveal how revision is both a micro practice tracked by textual change and a macro phenomenon rooted in family life, institutional culture, identity commitments, and political and social upheaval. Contributors depict revision as a holistic undertaking and a radically contextualized, distributed practice that showcases its relationality to everything else. Authors share their revision processes when creating scholarly works, institutional and self-promoting documents, and creative projects. Through narrative the volume opens a window to what is often unseen in a finished text: months or years of work, life events that disrupt or alter writing plans, multiple draft changes, questions about writerly identity and positionality, layers of (sometimes contradictory) feedback, and much more.
