Building PowerPoint Templates Step by Step with the Experts Echo Swinford,Julie Terberg,2012-09-28 Building PowerPointTemplates Supercharge your PowerPoint® presentations with custom templates and themes! Want to create presentations that are more consistent and cost-effective? Presentations that fully reflect your branding? Then don't settle for Microsoft's "out-of-the-box" templates and themes: create your own! In this easy, hands-on guide, two PowerPoint MVPs teach you every skill and technique you'll need to build the perfect template—from planning and design, through theme building, custom layouts, colors, and deployment. Echo Swinford and Julie Terberg have distilled their immense PowerPoint knowledge into simple, step-by-step techniques you can use right now, whether you're using PowerPoint 2010 or 2007 for Windows, or PowerPoint 2011 for Mac. Well-built templates are the backbone of great presentations—whether building them for your own use or designing for thousands of users, this book will guide you through the process of creating the most effective templates. Important Note: Upgrading from older versions of PowerPoint, such as PowerPoint 2003? Your old templates may no longer work. This book will help you make the transition painlessly!

- Plan new templates and themes to maximize their business value for years to come
- Understand the differences between templates and themes, and how they work together
- Make better choices about color, fonts, and slide layouts
- Create efficient templates for individual users, teams, and large organizations
- Incorporate Notes and Handout Masters into your presentation templates
- Provide example slides and default settings that lead to better presentations
- Use Microsoft's little-known Theme Builder to create effects and background styles
- Work around hidden quirks in PowerPoint's advanced template and theme features

Slides for Students Gary D. Fisk, 2018-10-16 300 million powerpoint presentations are given daily, yet there is a disconnect between the amazing technology of powerpoint and a mediocre student learning experience. To unleash the full potential of powerpoint presentations, we must do a better job of creating presentations that fit the educational needs of students. Slides for Students does just that. Slides for Students is an open and honest discussion about powerpoint in the classroom. A need exists for thoughtfully designed and implemented classroom instruction that focuses on the learner rather than on the technology. This book was written to translate academic research findings into practical suggestions about powerpoint that educators can use. Divided into two parts, Slides for Students discusses the history of powerpoint, explores academic studies on the topic, and demonstrates how to design slides to best suit educational needs and engage with students to avoid the dreaded death by powerpoint.

The Manager's Communication Toolbox Everett Chasen,Bob Putnam,2012-11-29 The Manager's Communication Toolbox focuses on management development by improving communication for new managers as well as more experienced professionals. Like a star baseball player, every good manager should aim to be a five-tool expert. Reading, writing, speaking, listening, and thinking are basic skills for any employee, but the manager who stands out is the manager who commands these skills. To improve your standing with your employees and superiors, it's essential to understand each of these areas of communication. In The Manager's Communication Toolbox, the authors offer tips, checklists, and examples, along with other expert testimony for best practices. Over the years, the practice of these skills has changed as a result of technology. Everyone emails these days, but in this book, the authors dig deeper into what to say, when to say it, and how to say it in a business setting. Rethink your thinking skills—find more time in your day by being more aware of your tendencies. And for everyone who worries about giving speeches and making presentations, find out how to improve, and the steps you can take to show off your managerial communication skills.
