Subscription Theater Matthew Franks,2020-09-25 Subscription Theater asks why turn-of-the-century British and Irish citizens spent so much time, money, and effort adding their names to subscription lists. Shining a spotlight on private play-producing clubs, public repertory theaters, amateur drama groups, and theatrical magazines, Matthew Franks locates subscription theaters in a vast constellation of civic subscription initiatives, ranging from voluntary schools and workers' hospitals to soldiers' memorials and Diamond Jubilee funds. Across these enterprises, Franks argues, subscribers created their own spaces for performing social roles from which they had long been excluded. Whether by undermining the authority of the Lord Chamberlain's Examiner of Plays and London's commercial theater producers, or by extending rights to disenfranchised women and property-less men, a diverse cast of subscribers including typists, plumbers, and maids acted as political representatives for their fellow citizens, both inside the theater and far beyond it. Citizens prized a democratic or representative subscription list as an end in itself, and such lists set the stage for the eventual public subsidy of subscription endeavors. Subscription Theater points to the importance of printed ephemera such as programs, tickets, and prospectuses in questioning any assumption that theatrical collectivity is confined to the live performance event. Drawing on new media as well as old, Franks uses a database of over 23,000 stage productions to reveal that subscribers introduced nearly a third of the plays that were most frequently revived between 1890 and the mid-twentieth century, as well as nearly half of all new translations, and they were instrumental in staging the work of such writers as Shaw and Ibsen, whose plays featured subscription lists as a plot point or prop. Although subscribers often are blamed for being a conservative force in theater, Franks demonstrates that they have been responsible for how we value audience and repertoire today, and their history offers a new account of the relationship between ephemera, drama, and democracy.

Stage It Floyd Rumohr,2024-12-04 Stage It provides a simple-to-follow roadmap for teachers to help students dive into the dramatic, romantic, and playful world of Shakespeare. Originating from the highly successful NYC-based arts education program, Stages of Learning, this resource enables your drama, arts, or ELA class to learn the basics of Shakespeare's language, themes, characters, introductory staging, and directing. Designed for busy teachers, Stage It enables you to choose your own adventure depending on time, grade level collaboration, and student interest. This professional teacher's guide has simple-to-use instructions and worksheets, such as acting tools for instruction about the plot synopsis, cast of characters, and paraphrasing; and directing tools for tips about the play and the theater-making process. Accompanying the book online are abridged versions of four of Shakespeare's well-known plays: Hamlet, Henry V, Julius Caesar, and Othello, as well as paraphrasing worksheets, a culminating performance program template, and more. Stage It meets or exceeds many standards-based frameworks including New York State Learning Standards in the Arts, benchmarks of the New York City Blueprint for Teaching and Learning in the Arts K-12: Theater, the U.S. Common Core/State Standards, and National Arts

Standards. Teachers of students aged 9–12, as well as educators in after-school or community programs, can foster a deep connection to the material through a gradual process that engages everyone in the classroom. This approach not only brings Shakespeare's timeless stories to life but also cultivates essential skills like public speaking, teamwork, and self-expression for students of all identities. Play Readings Rob Urbinati, 2015-10-05 *Play Readings: A Complete Guide for Theatre Practitioners* demystifies the standards and protocols of a play reading, demonstrating how to create effective and evocative readings for those new to or inexperienced with the genre. It examines all of the essential considerations involved in readings, including the use of the venue, pre-reading preparations, playwright/director communication, editing/adapting stage directions, casting, using the limited rehearsal time effectively, simple staging suggestions, working with actors, handling complex stage directions, talkbacks, and limiting the use of props, costumes, and music. A variety of readings are covered, including readings of musicals, operas, and period plays, for comprehensive coverage of this increasingly prevalent production form.

Technology-Based Pilot Programs National Research Council,Division on Engineering and Physical Sciences,Commission on Engineering and Technical Systems,Committee on Reserve Forces for 2010 and Beyond,1999-10-01 As the twenty-first century approaches, the number of full-time, active duty personnel in the U.S. military (excluding the Reserves and National Guard) is about 1.4 million, the lowest level since before World War II. Nevertheless, the U.S. military is supposed to be prepared to fight two major-theater wars almost simultaneously while conducting peacekeeping operations and other assignments around the globe. To fulfill this wide range of missions, the U.S. military must continue to rely on the Reserves and National Guard, which are known collectively as the reserve components. The current number of reserve components is almost equal to the number of active duty personnel. In the case of the U.S. Army, the number of reserves is double the number of active personnel. This study addresses how technology can be used to improve the readiness and effectiveness of the reserve components and their integration with the active components. Many technologies are expected to enhance the capabilities of the U.S. military in the twenty-first century, including precision weapons, high-fidelity sensors, long-range surveillance, enhanced stealth characteristics, and advanced communications and information systems. This study reaffirms the importance of improved communication and information systems, for improving comprehensive training and accelerating the mobilization of reserve components for military missions in the coming decade. Although programs using these technologies are already under way in both the reserve and active components of the military, this study focuses on the effectiveness of reserve components and active-reserve integration.

Mentoring Across Generations Andrea S. Taylor, Jeanette Bressler, 2012-12-06 Currently, blame for the difficulties facing youth is too often laid on one particular segment of the community - whether parents, school personnel or the children themselves. However, the problems of today's young people are problems for all generations. In response, the past decade has seen unparalleled proliferation of planned mentoring initiatives. Across Ages, the multi-faceted and multigenerational intervention described in this volume, uses older adult volunteers as mentors for young people. By acting as advocates, challengers, nurturers, role models and friends, older mentors help children develop the awareness, self-confidence, and skills they need to overcome overwhelming obstacles. Across Ages is cost-effective and feasible even where resources are fairly limited. Although designed as a school-based model, this program can easily be adopted to other settings. Each of the four major program components - mentoring, community service, 'life skills' instruction, and family support - is described in step-by-step detail.

Showing and Telling: Film heritage institutes and their performance of public accountability Nico de

Klerk,2019-03-25 'Showing and Telling' is the first academic work to explore how publicly funded film heritage institutes account for their mandate in their public activities. It does that by inspecting and evaluating public presentations and visitor information about these presentations. The research was done by juxtaposing two complementary approaches. The first is grounded in the author's experience as a collection researcher and curator and makes a case for the richness of archival objects usually ignored for their lack of aesthetic qualities. The second is a survey of the public activities of 24 institutes worldwide, based on their websites, in February 2014; the latter constitutes a unique source. This original work uncovers the disconnect between the curatorial activities of these institutes and their missions. A central finding is that publicly funded film heritage institutes give their public an inadequate sense of cinema history. By and large they offer a mainstream-oriented repertoire of presentations, overwhelmingly consisting of feature fiction; they show a disproportionate amount of recent and new works, often through commercial distribution; their screenings consist of an unexplained melee of technological formats (sometimes substandard); and their presentations monotonously frame film as art, although their professed aesthetics are mostly of a cinephile nature and rest on received opinion. Specific materials, early cinema in particular, and specialist knowledge, both historical and methodological, are largely restricted to their network of peer communities. Wholesome transfer of full knowledge, in word and image, to the public is not a major concern. 'Showing and Telling' concludes with recommendations for curatorial activities. Firstly, with a conceptual apparatus that allows a more complete understanding of film heritage and its histories. Secondly, with a plea for rethinking the institutes' gatekeeper function and for developing more varied, imaginative, and informative public presentations, both on site and online, that reflect the range of their collections and their histories.
