Adorno, Foucault and the Critique of the West Deborah Cook, 2018-11-27 The alliance of critical theory between Frankfurt and Paris Adorno, Foucault and the Critique of the West argues that critical theory continues to offer valuable resources for critique and contestation during this turbulent period. To assess these resources, it examines the work of two of the twentieth century's more prominent social theorists: Theodor W. Adorno and Michel Foucault. Although Adorno was situated squarely in the Marxist tradition that Foucault would occasionally challenge, Deborah Cook demonstrates that their critiques of our current predicament are complementary in important respects. Among other things, these critiques converge in their focus on the historical conditions-economic in Adorno and political in Foucault-that gave rise to the racist and authoritarian tendencies that continue to blight the West. Cook also shows that, when Adorno and Foucault plumb the economic and political forces that have shaped our identities, they offer remarkably similar answers to the perennial question: What is to be done?

Storyworthy Matthew Dicks, 2018-05-15 A five-time Moth GrandSLAM winner and bestselling novelist shows how to tell a great story — and why doing so matters. Whether we realize it or not, we are always telling stories. On a first date or job interview, at a sales presentation or therapy appointment, with family or friends, we are constantly narrating events and interpreting emotions and actions. In this compelling book, storyteller extraordinaire Matthew Dicks presents wonderfully straightforward and engaging tips and techniques for constructing, telling, and polishing stories that will hold the attention of your audience (no matter how big or small). He shows that anyone can learn to be an appealing storyteller, that everyone

has something “storyworthy” to express, and, perhaps most important, that the act of creating and telling a tale is a powerful way of understanding and enhancing your own life.

Affective Publics Zizi Papacharissi, 2015 Over the past few decades, we have witnessed the growth of movements using digital means to connect with broader interest groups and express their points of view. These movements emerge out of distinct contexts and yield different outcomes, but tend to share one thing in common: online and offline solidarity shaped around the public display of emotion. Social media facilitate feelings of engagement, in ways that frequently make people feel re-energized about politics. In doing so, media do not make or break revolutions but they do lend emerging, storytelling publics their own means for feeling their way into events, frequently by making those involved a part of the developing story. Technologies network us but it is our stories that connect us to each other, making us feel close to some and distancing us from others. *Affective Publics* explores how storytelling practices facilitate engagement among movements tuning into a current issue or event by employing three case studies: Arab Spring movements, various iterations of Occupy, and everyday casual political expressions as traced through the archives of trending topics on Twitter. It traces how affective publics materialize and disband around connective conduits of sentiment every day and find their voice through the soft structures of feeling sustained by societies. Using original quantitative and qualitative data, *Affective Publics* demonstrates, in this groundbreaking analysis, that it is through these soft structures that affective publics connect, disrupt, and feel their way into everyday politics.

The Work of Art in the Age of Mechanical Reproduction Walter Benjamin,2023-03-02 Walter Benjamin discusses whether art is diminished by the modern culture of mass replication, arriving at the conclusion that the aura or soul of an artwork is indeed removed by duplication. In an essay critical of modern fashion and manufacture, Benjamin decries how new technology affects art. The notion of fine arts is threatened by an absence of scarcity; an affair which diminishes the authenticity and essence of the artist's work. Though the process of art replication dates to classical antiquity, only the modern era allows for a mass quantity of prints or mass production. Given that the unique aura of an artist's work, and the reaction it provokes in those who see it, is diminished, Benjamin posits that artwork is much more political in significance. The style of modern propaganda, of the use of art for the purpose of generating raw emotion or arousing belief, is likely to become more prevalent versus the old-fashioned production of simpler beauty or meaning in a cultural or religious context.

Love from Mecca to Medina S. K. Ali, 2022-10-18 On the trip of a lifetime, Adam and Zayneb must find their way back to each other in this surprising and romantic sequel to the “bighearted, wildly charming” (Becky Albertalli, New York Times bestselling author) *Love from A to Z*. Adam and Zayneb. Perfectly matched. Painfully apart. Adam is in Doha, Qatar, making a map of the Hijra, a historic migration from Mecca to Medina, and worried about where his next paycheck will come from. Zayneb is in Chicago, where school and extracurricular stresses are piling on top of a terrible frenemy situation, making her miserable. Then a marvel occurs: Adam and Zayneb get the chance to spend Thanksgiving week on the Umrah, a pilgrimage to Mecca and Medina, in Saudi Arabia. Adam is thrilled; it’s the reboot he needs and an opportunity to pray for a hijra in real life: to migrate to Zayneb in Chicago. Zayneb balks at the trip at first, having envisioned another kind of vacation, but then decides a spiritual reset is calling her name too. And they can’t wait to see each other—surely, this is just what they both need. But the trip is nothing like what they expect, from the appearance of Adam’s former love interest in their traveling group to the anxiety gripping Zayneb when she’s supposed to be “spiritual.” As one wedge after another drives them apart while they make their way through rites in the holy city, Adam and Zayneb start to wonder: was their meeting just an oddity after all? Or can their love transcend everything else like the greatest marvels of the world?

In Praise of Shadows Junichiro Tanizaki, 2019-11-07 A fully illustrated, beautifully produced edition of Junichiro Tanizaki's wise and evocative essay on Japanese culture. ‘We find beauty not in the thing itself but in the patterns of shadows, the light and the darkness, that one thing against another creates... Were it not for shadows, there would be no beauty.’ This book is in fact a portal. Reading it, you will be led by Junichiro Tanizaki’s light touch into a mysterious and tranquil world of darkness and shadows, where gold flashes in the gloom and a deep stillness reigns. If you are accustomed to equate light with clarity, the faded with the worthless and the dim with the dreary, prepare for a courteous but powerful realignment of your ideas. *In Praise of Shadows* is a poetic paean to traditional Japanese aesthetics - in a free-ranging style that moves from architecture to No theatre, and from cookery to lighting, Tanizaki teaches us to see the beauty in tarnished metal, the sombre dignity in unglazed pottery, the primacy of organic materials that bear witness to the regular touch of human hands. It is also astonishingly prescient, offering a gentle warning against the quest for airbrushed perfection, and reminding us that too much light can pollute and obscure our natural world. In this special edition, the text is accompanied by specially selected images to complement Tanizaki’s reflections and further illustrate the pattern and beauty of shadows.
