The Decisive Decade Jonathan D. T. Ward,2023-04-25 With a focus on the economic battlefield and in-depth analysis of the diplomatic, military, and ideological arenas, the world's foremost expert on US-China global competition offers a rousing, strategic call to action and playbook—harvesting all of our nation's ingenuity, confidence, and will power—to outcompete the long-term strategies of China and its Communist Party. In *The Decisive Decade*, Dr. Jonathan D.T. Ward—China scholar and founder of the Atlas Organization, a consultancy focused on US-China global competition—offers a comprehensive framework for how the United States can, and must, defeat China on the world stage economically, diplomatically, militarily, and ideologically. International security and American supremacy are at stake—and now is the time for the US to take action. China's global power and influence grows every day. Working from a deep sense of national identity, the Chinese Communist Party is leading its country toward what it deems “the great rejuvenation of the Chinese Nation,” and executing a long-term Grand Strategy to topple over its chief adversary, the United States. As China becomes increasingly repressive domestically and aggressive overseas, it threatens to upend America's global dominance at every turn. Ward provides novel and practical strategies that our government, as well as our businesses and our citizens, can utilize to undermine our adversary. Exhaustive campaigns in the economic, diplomatic, military, and ideological arenas, he argues, must be taken to achieve victory. With expert analysis of the history of US-China relations, as well as insight into how the Russia-Ukrainian war can inform our strategic thinking, *The Decisive Decade* presents a unique toolkit for our triumph over China. We can succeed, but it won't be easy; it will take all of our nation's ingenuity, confidence, and willpower to win.

The Self-Directed Learning Handbook Maurice Gibbons,2003-02-03 The Self-Directed Learning Handbook offers teachers and principals an innovative program for customizing schooling to the learning needs of individual students-- and for motivating them to take increasing responsibility for deciding what and how they should learn. Whether the students are

struggling or proficient, the program is designed to nurture their natural passion for learning and mastery, challenging them to go beyond the easy and familiar so they can truly excel. The program can be introduced in stages in any middle or high school classroom and enables students of diverse abilities to design and pursue independent course work, special projects, or even artistic presentations, community field work or apprenticeships. Using this approach, the students take on an increasingly autonomous, self-directed role as they progress. The heart of the program is the action contract (or learning agreement) whereby the student sets challenging yet attainable goals, commits to a path for achieving them, and evaluates the results. Special emphasis is placed on developing skills and competencies that can serve the student well in his or her academic and career endeavors.
