Making Simple Automata Robert Race, 2014-05-31 Designing and making successful automata involves combining materials, mechanisms and magic. Making Simple Automata explains how to design and construct small scale, simple mechanical devices made for fun. Materials such as paper and card, wood, wire, tinplate and plastics are covered along with mechanisms - levers and linkages, cranks and cams, wheels, gears, pulleys, springs, ratchets and pawls. This wonderful book is illustrated with examples throughout and explains the six golden rules for making automata alongside detailed step-by-step projects. Magic - an unanalyzable charm, a strong fascination so that the whole is more than the sum of its parts. Superbly illustrated with 110 colour photographs with examples and detailed step-by-step projects.

Skew-Elliptical Distributions and Their Applications Marc G. Genton,2004-07-27 This book reviews the state-of-the-art advances in skew-elliptical distributions and provides many new developments in a single volume, collecting theoretical results and applications previously scattered throughout the literature. The main goal of this research area is to develop flexible parametric classes of distributions beyond the classical no

The Groom Will Keep His Name Matt Ortile,2020-06-02 A riotous collection of witty and captivating essays by a gay Filipino immigrant in America who is learning that everything is about sex (Bitch Magazine) -- and sex is about power. When Matt Ortile moved from Manila to Las Vegas, the locals couldn't pronounce his name. Harassed as a kid for his brown skin, accent, and femininity, he believed he could belong in America by marrying a white man and shedding his Filipino identity. This was the first myth he told himself. The Groom Will Keep His Name explores the various tales Ortile spun about what it means to be a Vassar Girl, an American Boy, and a Filipino immigrant in New York looking to build a home. As we meet and mate, we tell stories about ourselves, revealing not just who we are, but who we want to be. Ortile recounts the relationships and whateverships that pushed him to confront his notions of sex, power, and the model minority myth. Whether swiping on Grindr, analyzing DMs, or cruising steam rooms, Ortile brings us on his journey toward radical self-love with intelligence, wit, and his heart on his sleeve.

Shadow Warrior: Jotaro,2012-03-01 Do virtually anything with almost nothing. With riveting real-life examples and step-by-step instruction, this revelatory work from the renowned martial arts historian and practitioner Jotaro guides you through the principles of kochojutsu, the art of the butterfly: a specialized means of controlling your body and mind, your environment, and your foes to achieve your own ends. In plain language Jotaro renders the esoteric and technical aspects of spycraft, martial arts, psychology, and spirituality into practical actions you can apply immediately to every aspect of life. Reading this book and adhering to its precepts will allow you to:

- Disappear: Become undetectable in any environment.
- Read Minds: Know your enemies' thoughts and intentions before they do.
- See the Future: Ensure that your educated guesses are never wrong.
- Control Minds: From gentle suggestion to irresistible manipulation, bend others to your will.

Become Invincible: Guarantee that you never lose a fight. Readers are cautioned to use the knowledge contained in these pages with humility and restraint. (Caution: For Academic Study Only)

Operator Down Brad Taylor, 2018-01-09 • A New York Times Bestseller • Former Special Forces Officer and New York Times bestselling author Brad Taylor delivers a heart-pounding thriller where Pike Logan's search for a Mossad agent and ally puts him on a collision course with a ruthless military coup in Africa—and tests his loyalties to the Taskforce. It was to be a simple mission. Nothing more than assessing whether a merchant in the fabled Israeli Diamond Exchange was involved in a scheme that could potentially embarrass the state of Israel. But nothing is ever simple in the world of intelligence, as Aaron Bergman—a former leader of an elite direct action team under the Mossad—should have known. Executing the operation as a contractor, a cutout that gave the State of Israel plausible deniability, he disappears without a trace. Pike Logan and his team know none of this, but he's tracking an American arms dealer in Tel Aviv who may—or may not—be attempting to sell sensitive nuclear weapons components to the highest bidder. When Pike's team breaks up an attempt at killing Shoshana, Aaron's partner, they stumble upon much more than they expected—a concerted conspiracy to topple a democratic African country. Beginning to untangle a web that extends through both the American and Israeli intelligence community, Pike is forced to choose between his Israeli friends and his Taskforce mission, even as the execution of the coup begins to form. At the heart of it is Aaron, and his disappearance is the one mistake the plotters made. Because Shoshana is the greatest killing machine the Mossad has ever produced, and she will stop at nothing to help Aaron, even if it means killing Pike Logan.

Figuration/Abstraction Charlotte Benton, 2017-07-05 The notion that the practice of abstraction was confined to Western Europe while a stereotyped form of figuration defined the art of the Eastern bloc continues to dominate art historical accounts of public sculpture of the post-war period. This book offers a number of alternative readings, and demonstrates strategic uses of figuration and abstraction across East and West. Encompassing sites of memory (including war memorials and Holocaust memorials), state, civic and corporate sculpture, as well as temporary and unexecuted projects, the book shows that persuasive advocates of figuration were to be found in the West, while in the East imaginative experiments in abstraction were proposed in the name of Social Realism. Presenting fresh insights into sculptural practice in the period between 1945 and 1968, this book brings together a wide range of authors, some of whom have never before been published in English. Their essays are complemented by extracts from documentary texts, which give a flavour of contemporary debates, and a biographical section includes entries on many sculptors who will be unfamiliar to an English-speaking audience.

The National and Beyond Pietari Kääpä, 2010 The films of Aki and Mika Kaurismäki are part of a globalising Finnish cinema, challenging conventional parameters at every turn. This work examines the films that the Kaurismäkis produced, individually and in collaboration, between 1981 and 1995 - films which mobilise various methods to reflect, criticise,

counteract and contribute to the globalisation of Finnish society in the era of late capitalist development. This work provides an in-depth analysis of these films, exploring the aesthetic and narrative content of the films as well as their production and reception in Finland. The theoretical scope of the work situates the films not only in the field of transnational cinema, but also that of 'post-national' cinema. Exploring the Kaurismäki's films in a post-national framework points to new, emergent understandings of both the fragility and the persistence of national culture and identity in a globalising world.

On Location in Cuba Ann Marie Stock, 2009-05-15 The 1990s were a time of dramatic transformation for Cuba. With the collapse of its Cold War relationship with the Soviet Union, the island nation plummeted into an era of scarcity and uncertainty known as the Special Period, a time from which it emerged only slowly in the new century. *On Location in Cuba* views these pivotal decades through the lens of cinema. Ann Marie Stock conducted hundreds of interviews and conversations in Cuba to examine individual artists' lives and creative output—including film, video, and audiovisual art. She explores the impact of the Cold War's end, the economic crisis that ensued, and the decentralization of the state's political, economic, and cultural apparatus. Stock focuses on what she calls Street Filmmaking—the production of emerging audiovisual artists who work outside the state film industry—to examine the island's transformation and changing notions of Cuban identity. Employing entrepreneurial approaches to producing art and to negotiating the exigencies of globalization, this younger generation of filmmakers offers fresh perspectives on what it means to be Cuban in an increasingly complex and connected world.

Law and Reflexive Politics E.A. Christodoulidis, 2013-12-01 Law is the great concealer; and law is everywhere. Or so claimed Marxists once upon a time. [Law] was imbricated within the mode of production and productive relations themselves . . . it intruded brusquely within alien categories, re-appearing bewigged and gowned in the form of ideology; . . . it was an arm of politics and politics was one of its arms; it was an academic discipline, subjected to the rigour of its own autonomous logic, it contributed to the definition of the self-identity of both the rulers and the ruled. Does the old critique of domination still hold any sway? Apparently not. Or so even scholars of the far Left keep reminding us in their eagerness to embrace law and proclaim their allegiance to the new constitutional politics of civil society. Old Marxists now describe popular sovereignty as 'co-original' with, and democracy 'internally linked' to constitutional rights and find it hard to remember what it was they once disagreed with liberals about. No tension left between emancipatory politics and oppressive law; instead we have reciprocal constitution, simultaneous realisation. In the Left's embracing of the new constitutionalisms its old critique of law - the critique of the law's concealment of class inequality, class conflict and class action - is left behind.

Propaganda Lukasz Olejnik, 2024-10-02 The book is a modern primer on propaganda—aspects like disinformation, trolls, bots, information influence, psychological operations, information operations, and information warfare. *Propaganda: From Disinformation and Influence to Operations and Information Warfare* offers a contemporary model for thinking about the

subject. The first two decades of the 21st century have brought qualitative and quantitative technological and societal changes, and the subject of information influence needs to be re-ordered. Now is the time. The book explains the origins of the meaning and phenomenon of propaganda—where it came from and how it has changed over the centuries. The book also covers modern methods, including artificial intelligence (AI) and advertising technologies. Legal, political, diplomatic, and military considerations ensure that the material is covered in depth. The book is recommended for security and cybersecurity professionals (both technical and non-technical), government officials, politicians, corporate executives, academics, and students of technical and social sciences. Adepts with an interest in the subject will read it with interest.

Cute Yummy Time La Carmina, 2009-10-06 Read La Carmina's posts on the Penguin Blog. A cookbook that thinks outside the bento box and brings the popular Japanese trend of kawaii (all things cute) to the American kitchen. Hello Kitty, Pokémon, Super Mario, Astroboy... American pop culture has been invaded by big-headed, dewy-eyed characters from Japan. The cult of kawaii (ka-why-ee, or all things cute) has spread to every aspect of living—including food. Take Japan's wackiest new trend: school lunches dolled up as adorable creatures. They're feasts for the eyes, but their ingredients such as natto and nori don't exactly sit well with Western stomachs. Cute Yummy Time interprets this Japanese phenomenon for the American palate. Using familiar foods, La Carmina turns mundane meals into adorable sensations. A risotto ball becomes a curious hedgehog; chicken sandwiches are dressed as chicks. Entertaining has never been so endearing with a blue cheese blowfish for a beach party or strawberry lovers in chocolate crepe robes for Valentine's Day. Each recipe includes step-by-step instructions, illustrations, and eye-popping full-color photos. Watch a Video

Erykah Badu: The First Lady of Neo-Soul Joel McIver, 2011-08-01 Erykah Badu stands at the forefront of a whole new genre of music. Before Macy Gray, Alicia Keys and Angie Stone, Erykah was bringing the unique sounds of neo-soul - the classic vibes of Motown and Stax smoothed by Jazz and toughened by Hip-Hop - to the people. quite simply, there is no other artist like her. Joel McIver's biography is a detailed and enlightening look at one of the world's great performers, accompanied with photographs, which forms a typically insightful appreciation of her magnificent music.
