Make Your Mess Your Memoir Anna David, 2020-06 These days, there's no better business tool than a book. But most people don't know how to write one-or even where to start. Turns out the best place is the messy middle. Anna David knows this more than anyone. When the New York Times bestselling author of seven books got sober and sold a book about her recovery to the biggest publisher in the world, she thought she'd made it. Then she learned the hard way that trying to make a living by selling books to traditional publishers was a cruel joke-and that accepting the unacceptable was no way to live. The publishing industry was ripe for disrupting. But first David had to make a mess and then learn from it. After years of struggle and self-discovery, she ended up not only mentoring and publishing hundreds of bestselling authors but also thriving personally and professionally. Now she's sharing what she's learned-and showing others how to do the same. In this page-turning and useful memoir-meets-manual, David reveals her personal lows (doing cocaine by herself while contemplating suicide), her career lows (a past-his-prime celebrity hurling a phone at her as she wrote his biography) and how her life today wouldn't be possible without those experiences. With deft humor and unique insight, David demonstrates how much early childhood programming can set us up to repeat our own dysfunctional patterns-until we're ready to shift our behavior. The last quarter of the book is a practical guide so that readers can make their own mess into a message-and memoir.

The Author Online Annik LaFarge,2010-07-11 This brief manual, written by longtime publishing veteran Annik LaFarge, is designed to help you conceive, plan, and create your own unique presence online. It's not a technical book but instead focuses on the large questions that all writers must wrestle with as they plan their website: Who do you want to be online? What do you want to do there? And where do you start? A central premise of the *The Author Online* is that anyone who can write a book is capable of building his own website. New technology and open source innovations make it easy, affordable, and even fun a creative act unto itself. But, like writing a book, it requires thoughtful and careful planning. Since leaving publishing LaFarge has helped many authors build successful websites, and this book is a brief primer on how any author -- fiction or non-fiction, adult or kids -- should begin the process of thinking about what to do online. *The Author Online* is filled with ideas, advice, and real-world examples. It also includes results from the first and only comprehensive survey of author websites and invaluable insights into: the features readers look for on their favorite author websites- whether or not to blog or Twitter, and how to approach both in an authentic, effective way- when and how to work with designers and/or programmers- how to create a content plan for your site- how to use analytic data as an editorial tool

The Writing Revolution Judith C. Hochman, Natalie Wexler, 2017-08-07 Why you need a writing revolution in your classroom and how to lead it The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, The Writing Revolution can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities The Writing Revolution is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.
