**Make Your Mess Your Memoir** Anna David, 2020-06 These days, there's no better business tool than a book. But most people don't know how to write one--or even where to start. Turns out the best place is the messy middle. Anna David knows this more than anyone. When the New York Times bestselling author of seven books got sober and sold a book about her recovery to the biggest publisher in the world, she thought she'd made it. Then she learned the hard way that trying to make a living by selling books to traditional publishers was a cruel joke--and that accepting the unacceptable was no way to live. The publishing industry was ripe for disrupting. But first David had to make a mess and then learn from it. After years of struggle and self-discovery, she ended up not only mentoring and publishing hundreds of bestselling authors but also thriving personally and professionally. Now she's sharing what she's learned--and showing others how to do the same. In this page-turning and useful memoir-meets-manual, David reveals her personal lows (doing cocaine by herself while contemplating suicide), her career lows (a past-his-prime celebrity hurling a phone at her as she wrote his biography) and how her life today wouldn't be possible without those experiences. With deft humor and unique insight, David demonstrates how much early childhood programming can set us up to repeat our own dysfunctional patterns--until we're ready to shift our behavior. The last quarter of the book is a practical guide so that readers can make their own mess into a message--and memoir.

*The Plot Dot* Derek Murphy, 2016-04-13 An Adult Coloring Book for Authors! This book will help you paint powerful visual scenes that stick with readers long after they're finished your book. The techniques described within are simple and easy to use. Think of this as a guided coloring book adventure. YOUR adventure. There are lots of systems and guides to plotting, but if you're like me you have journals filled with notes, scenes and description... it can get overwhelming. I've based this book on traditional three-act story architecture, but it's greatly simplified. Plotters and pantsers can use the guided exercises to gain greater visual clarity and build more meaningful scenes with resonance. This book will help you get organized and unlock hidden potential in your scenes that you didn't know was there, by going beyond words and focusing on drawing and coloring your scenes until you have a full outline. This book makes an excellent workbook for writing retreats, is simple enough for children to use (it's never too early to write your first novel), and introduces a new, and hopefully useful, way to organize your novel, improve your writing, and create unforgettable scenes that will make a deep and lasting impact.

**The Writing Revolution** Judith C. Hochman, Natalie Wexler, 2017-08-07 Why you need a writing revolution in your classroom and how to lead it *The Writing Revolution (TWR)* provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as *The Hochman Method*, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, *The Writing*

Revolution can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities The Writing Revolution is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.
