Written for both new and experienced instructors, the book guides you in adding pedagogically relevant visual design elements that contribute to effective learning practices. The text builds upon three conceptual frameworks: active learning, multiple intelligences, and universal design for learning. Web-based Education Anil Aggarwal,2003-01-01 Successful use of information and communication technologies depends on usable designs that do not require expensive training, accommodate the needs of diverse users and are low cost. There is a growing demand and increasing pressure for adopting innovative approaches to the design and delivery of education, hence, the use of online learning (also called E-learning) as a mode of study. This is partly due to the increasing number of learners and the limited resources available to meet a wide range of various needs, backgrounds, expectations, skills, levels, ages, abilities and disabilities. The advances of new technology and communications (WWW, Human Computer Interaction and Multimedia) have made it possible to reach out to a bigger audience around the globe. By focusing on the issues that have impact on the usability of online learning programs and their implementation, Usability Evaluation of Online Learning Programs specifically fills-in a gap in this area, which is particularly invaluable to practitioners.

The New Life of Hugo Gardner Louis Begley,2020-03-17 Beloved author Louis Begley returns to the monied halls of the Upper East Side with a sharp new comedy of manners. Divorced after decades of comfortable marriage, retired journalist Hugo Gardner sets out to explore paths not travelled. After four decades of what he believes to be a happy, healthy partnership, Hugo Gardner's world is overturned when he learns that his wife, Valerie, is not only requesting a divorce but

has left him for a younger, more vital man. Hugo, an octogenarian political writer and retired journalist for Time, must rethink the way he's lived, and reassess how he'd like to spend his remaining years. Reconsidering past relationships in his mind, with years of distance, Hugo begins to see things in a new light: Valerie, whose youth and ambition eventually came between them; his children, whose support might be more financially than emotionally motivated; and his friends, who, like him are rapidly aging before his very eyes. With an ominous oncologist's report hanging over his head, Hugo decides to get away for a bit, to a conference in Paris. There, a new romance blooms and Hugo finds himself wondering if growing old in Paris might be the perfect antidote to the drama he left behind in New York. Unflinching, witty, and urbane as ever, Louis Begley delivers a spot-on satire of the world of New York's aging elite, and uncovers the unexpected delights a late-in-life change can offer.
