Like a contemporary Pilgrim's Progress, it traces the author's journey and explores his experiences with both charismatic and evangelical Christianity. It also describes his transformation from religious outsider to ordained pastor. John Koessler provides a poignant and often humorous window into the interior of the soul as he describes his journey from doubt and struggle with the church to personal faith

Why Business People Speak Like Idiots Brian Fugere, Chelsea Hardaway, Jon Warshawsky, 2005-02-22 There is a fundamental disconnection between the way business people speak and real people communicate. From advertisers, big business and CEOs - the blather is coming at us in waves. The International Language of Business is no longer English - it's gobbledygook. The authors blindly discovered the enormity of the problem in June 2003 with the launch of Bullfighter, an anti-jargon software tool. But jargon is just one symptom in a larger problem afflicting corporate communications today: the wholesale inability to connect with an audience. In the form of admirably straight-talk, we discover how to avoid the 'obscurity trap', 'the anonymity trap', the 'hard-sell trap' and most importantly, 'the tedium trap'. In this witty and practical new book readers are given all the tools they need to fight the 'spin' and learn to speak like the rest of us.

Results Bruce A. Pasternack, Gary L. Neilson, 2005-10-18 Every company has a personality. Does yours help or hinder your results? Does it make you fit for growth? Find out by taking the quiz that’s helped 50,000 people better understand their organizations at OrgDNA.com and to learn more about Organizational DNA. Just as you can understand an individual’s personality, so too can you understand a company’s type—what makes it tick, what’s good and bad about it. Results explains why some organizations bob and weave and roll with the punches to consistently deliver on commitments and produce great results, while others can’t leave their corner of the ring without tripping on their own shoelaces. Gary Neilson and Bruce Pasternack help you identify which of the seven company types you work for—and how to keep what’s good and fix what’s wrong. You’ll feel the shock of recognition (“That’s me, that’s my company”) as you find out whether your organization is: • Passive-Aggressive (“everyone agrees, smiles, and nods, but nothing changes”): entrenched underground resistance makes

getting anything done like trying to nail Jell-O to the wall • Fits-and-Starts (“let 1,000 flowers bloom”): filled with smart people pulling in different directions • Outgrown (“the good old days meet a brave new world”): reacts slowly to market developments, since it’s too hard to run new ideas up the flagpole • Overmanaged (“we’re from corporate and we’re here to help”): more reporting than working, as managers check on their subordinates’ work so they can in turn report to their bosses • Just-in-Time (“succeeding, but by the skin of our teeth”): can turn on a dime and create real breakthroughs but also tends to burn out its best and brightest • Military Precision (“flying in formation”): executes brilliant strategies but usually does not deal well with events not in the playbook • Resilient (“as good as it gets”): flexible, forward-looking, and fun; bounces back when it hits a bump in the road and never, ever rests on its laurels For anyone who’s ever said, “Wow, that’s a great idea, but it’ll never happen here” or “Whew, we pulled it off again, but I’m tired of all this sprinting,” Results provides robust, practical ideas for becoming and remaining a resilient business.
