Making and Selling Culture Richard Ohmann, 1996-11-25 An inside look at cultural industries, featuring interviews with key players from such companies as Twentieth-Century Fox, National Public Radio, and Coca-Cola. To what extent do moviemakers, television and radio producers, advertising executives, and marketers merely reflect trends, beliefs, and desires that already exist in our culture, and to what extent do they consciously shape our culture to their own ends? In-depth interviews with ten executives from the culture industry and five scholarly analyses examine that question, and address the issues of power and authority, meaning and identity, that arise when cultural producers define and react to audiences. In their own words, leaders from companies like Twentieth-Century Fox, National Public Radio, and Warner Bros. Television describe their perception of the sometimes paradoxical relationship between culture and what influences it. For example, while the former president of Coca-Cola North America claims the company has never tried to create a trend, he notes that we market in more countries than belong to the United Nations [a product that] has insinuated itself into the lives of the people to a point where it has become-you know, it's there. These reflections by key players provide an unprecedented view, as editor Richard Ohmann writes, into the ways cultural producers imagine or know markets and how such knowledge figures in their decisions about what events, experiences, and products to make.

It also covers some of softer, but equally important, topics like conflict resolution and mental health. Great management changes lives. In fact, it's one of the most single overlooked pieces of leverage in the world. Great managers are remembered like great teachers, inspirations who help others soar. That's why it's such a shame management training is so often overlooked. If you're a new manager, this book will shine a friendly light on the road ahead. And if you're an old dog, perhaps it'll teach

you a trick or two. This handbook was written by Alex MacCaw and stress-tested at a company called Clearbit.

Rape Miranda A. H. Horvath, Jennifer M. Brown, 2013-01-11 Rape remains one of the most controversial issues within criminal justice and receives high profile coverage internationally. Despite the many changes there have been to the law, practice and procedure in the investigation of rape allegations, and support available for victims, victims are routinely blamed for their victimization. Only a very small number of perpetrators ever face prosecution, let alone conviction. This book aims to take stock of current thinking and research about rape and the way it is handled in practice within the criminal justice system, and to challenge some of the widely held but inaccurate beliefs about rape. It brings together leading researchers in the field from psychology, sociology and law, considering new research and presenting new data from a strong theoretical and contextual base. The main focus of the book is on adult victims of rape, with chapters exploring such issues as rape and the media, the use of alcohol and drugs in rape, police decision making on rape cases, conviction patterns in rape trials, and interviewing victims of rape and sexual assault.
