Smartcuts Shane Snow,2014-09-09 Entrepreneur and journalist Shane Snow (Wired, Fast Company, The New Yorker, and cofounder of Contently) analyzes the lives of people and companies that do incredible things in implausibly short time. How do some startups go from zero to billions in mere months? How did Alexander the Great, YouTube tycoon Michelle Phan, and Tonight Show host Jimmy Fallon climb to the top in less time than it takes most of us to get a promotion? What do high-growth businesses, world-class heart surgeons, and underdog marketers do in common to beat the norm? One way or another, they do it like computer hackers. They employ what psychologists call lateral thinking: to rethink convention and break rules that aren't rules. These are not shortcuts, which produce often dubious short-term gains, but ethical smartcuts that eliminate unnecessary effort and yield sustainable momentum. In *Smartcuts*, Snow shatters common wisdom about success, revealing how conventions like paying dues prevent progress, why kids shouldn't learn times tables, and how, paradoxically, it's easier to build a huge business than a small one. From SpaceX to The Cuban Revolution, from Ferrari to Skrillex, *Smartcuts* is a narrative adventure that busts old myths about success and shows how innovators and icons do the incredible by working smarter—and how perhaps the rest of us can, too.
