The Gentle Art of Swedish Death Cleaning Margareta Magnusson, 2018-01-02 *The basis for the wonderfully funny and moving TV series developed by Amy Poehler and Scout Productions* A charming, practical, and unsentimental approach to putting a home in order while reflecting on the tiny joys that make up a long life. In Sweden there is a kind of decluttering

called *döstädning*, *dö* meaning “death” and *städning* meaning “cleaning.” This surprising and invigorating process of clearing out unnecessary belongings can be undertaken at any age or life stage but should be done sooner than later, before others have to do it for you. In *The Gentle Art of Swedish Death Cleaning*, artist Margareta Magnusson, with Scandinavian humor and wisdom, instructs readers to embrace minimalism. Her radical and joyous method for putting things in order helps families broach sensitive conversations, and makes the process uplifting rather than overwhelming. Margareta suggests which possessions you can easily get rid of (unworn clothes, unwanted presents, more plates than you’d ever use) and which you might want to keep (photographs, love letters, a few of your children’s art projects). Digging into her late husband’s tool shed, and her own secret drawer of vices, Margareta introduces an element of fun to a potentially daunting task. Along the way readers get a glimpse into her life in Sweden, and also become more comfortable with the idea of letting go.

Work Clean Dan Charnas, 2016-05-03 The first organizational book inspired by the culinary world, taking *mise-en-place* outside the kitchen. Every day, chefs across the globe churn out enormous amounts of high-quality work with efficiency using a system called *mise-en-place*--a French culinary term that means "putting in place" and signifies an entire lifestyle of readiness and engagement. In *Work Clean*, Dan Charnas reveals how to apply *mise-en-place* outside the kitchen, in any kind of work. Culled from dozens of interviews with culinary professionals and executives, including world-renowned chefs like Thomas Keller and Alfred Portale, this essential guide offers a simple system to focus your actions and accomplish your work. Charnas spells out the 10 major principles of *mise-en-place* for chefs and non chefs alike: (1) planning is prime; (2) arranging spaces and perfecting movements; (3) cleaning as you go; (4) making first moves; (5) finishing actions; (6) slowing down to speed up; (7) call and callback; (8) open ears and eyes; (9) inspect and correct; (10) total utilization. This journey into the world of chefs and cooks shows you how each principle works in the kitchen, office, home, and virtually any other setting.

Teaching from Rest Sarah Mackenzie, 2015-09-15 In the book of Philippians we are told to be anxious over nothing, and yet we are anxious over everything. We worry that our students will be behind, that they won't score well on the SAT, get into a good college, or read enough of the Great Books. Our souls are restless, anxiously wondering if something else out there might be just a little bit better -- if maybe there is another way or another curriculum that might prove to be superior to what we are doing now. God doesn't call us to this work and then turn away to tend to other, more important matters. He promises

to stay with us. He assures us that if we rely on Him alone, then He will provide all that we need. What that means on a practical level is that we have to stop fretting over every little detail. We need to stop comparing. We've got to drop the self-inflated view that we are the be-all-end-all of whether the education we are offering our students is going to be as successful as we hope it is. After all, our job is not to be successful -- success itself is entirely beside the point. It's faithfulness that He wants.
