168 Hours Laura Vanderkam,2011-05-31 It's an unquestioned truth of modern life: we are starved for time. We tell ourselves we'd like to read more, get to the gym regularly, try new hobbies, and accomplish all kinds of goals. But then we give up because there just aren't enough hours to do it all. Or if we don't make excuses, we make sacrifices- taking time out from other things in order to fit it all in. There has to be a better way...and Laura Vanderkam has found one. After interviewing dozens of successful, happy people, she realized that they allocate their time differently than most of us. Instead of letting the daily grind crowd out the important stuff, they start by making sure there's time for the important stuff. When plans go wrong and they run out of time, only their lesser priorities suffer. Vanderkam shows that with a little examination and prioritizing, you'll find it is possible to sleep eight hours a night, exercise five days a week, take piano lessons, and write a novel without giving up quality time for work, family, and other things that really matter.

The Day Jesus Came Erich Simon,2024-10-01 This is the eclectic true story about a man who encountered an extraterrestrial in the year 2013. In his quest to understand the otherworldly experience, he embarked on an incredible journey. He discovered that he possessed visual capabilities that exceeded those of any other human. And he discovered that the extraterrestrial he encountered was Jesus Christ. The unwitting victim of circumstance, the man found himself at war with all of heaven. After five years of preternatural investigation, he uncovered the reason why and the tragic and terrible mistake he made on the day Jesus came. Resigned to his fate, the man turned his eyes loose on the world of God and cracked Creation from A to Z. All of God's secrets--the truth of the soul, how God attached a soul to a physical world life-form, the purpose of life, how God creates life, the reason for suffering and evil, the answers to every question--became known to this one man. After years of living in terror of having God press the brand of the second Judas upon his head, the man finally decided to give God's secrets to the created human race--the particulars not revealed in the Bible, the things God never shared with Jesus, the truth behind everything that human beings need to know to understand that the game of creation is for real and it is for keeps. And it is the most dangerous game ever conceived.

The Clean Healthy Recipes 6 Week Weight Loss Plan James Ryan,2014-02-02 Welcome to the “Clean Healthy Recipes 6 Week Weight Loss Challenge”: A guide to fresh, healthy and nutritious eating. This book is a 6 week clean eating challenge containing 100 healthy, delicious, easy to cook meals to help readers increase health, lose weight and feel great! Before you read any further, this challenge is not a diet. The word diet itself does nothing but set you up for failure. If you look up the definition of the word ‘diet’ in any dictionary you will fail to find a definition suggesting that a diet is “an unrestricted, yet healthy and balanced approach to what we consume, with the intention of not only improving, but sustaining a high level of both physical and mental health”. If a diet does not do this, then why would you even consider dieting? Yes, we can all agree it would be great to lose 10kgs in a week, but what’s the point of losing it if you’re going to put it back on? What you really need to focus on when trying to lose weight is making small healthy changes that remain with you forever. Educate yourself on what’s good for you, what’s bad for you, what you should consume more of and what you should consume less of and start incorporating these into your daily life. It might be hard at first but you can do it. Even if you only change one small habit a week by adding something that’s good for you and eliminating something that’s bad for you. Even if it takes you twelve months to get yourself into a healthy, life long eating plan, at least in 12 months you will be there. Remember, the one thing that we have no control over is time. It is the one variable that can never be controlled. 12 months from reading this article is going to be 12 months from reading this article no matter which way you look at it. You cannot change that. However, what you are doing and where you will be when that 12-month mark arrives is the variable that can be controlled. What you do within that 12 months is controlled entirely by you. You can either be in the same situation, or you can slowly chip away at what can appear to be an impossible task so that by the time the inevitable arrives, you are in a completely different situation. The choice is yours and its time to take control. Regardless of your current situation, when it comes to healthy eating, it’s never too early and it’s never too late.
