Girl Zines Alison Piepmeier, 2009-11-18 Stroll through any public park in Brooklyn on a weekday afternoon and you will see black women with white children at every turn. Many of these women are of Caribbean descent, and they have long been a crucial component of New York's economy, providing childcare for white middle- and upper-middleclass families. *Raising Brooklyn* offers an in-depth look at the daily lives of these childcare providers, examining the important roles they play in the families whose children they help to raise. Tamara Mose Brown spent three years immersed in these Brooklyn communities: in public parks, public libraries, and living as a fellow resident among their employers, and her intimate tour of the public spaces of gentrified Brooklyn deepens our understanding of how these women use their collective lives to combat the isolation felt during the workday as a domestic worker. Though at first glance these childcare providers appear isolated and exploited—and this is the case for many—Mose Brown shows that their daily interactions in the social spaces they create allow their collective lives and cultural identities to flourish. *Raising Brooklyn* demonstrates how these daily interactions form a continuous expression of cultural preservation as a weapon against difficult working conditions, examining how this process unfolds through the use of cell phones, food sharing, and informal economic systems. Ultimately, *Raising Brooklyn* places the organization of domestic workers within the framework of a social justice movement, creating a dialogue between workers who don't believe their exploitative work conditions will change and an organization whose members believe change can come about through public displays of solidarity.

Color the Tahoe Rim Trail Jared Manninen, 2016-11-04 The Tahoe Rim Trail is a continuous trail that travels around the mountainous rim of the Lake Tahoe Basin. Tricky Vic Greg Pizzoli, 2015-03-10 A New York Times Book Review Best Illustrated Children's Book of 2015 In the early 1900s, Robert Miller, a.k.a. "Count Victor Lustig," moved to Paris hoping to be an artist. A con artist, that is. He used his ingenious scams on unsuspecting marks all over the world, from the Czech Republic, to Atlantic ocean liners, and across America. Tricky Vic pulled off his most daring con in 1925, when he managed to sell the Eiffel Tower to one of the city's most successful scrap metal dealers! Six weeks later, he tried to sell the Eiffel Tower all over again. Vic was never caught. For that particular scam, anyway. . . . Kids will love to read about Vic's thrilling life, and teachers will love the informational sidebars and back matter. Award-winner Greg Pizzoli's humorous and vibrant graphic style of illustration mark a bold approach to picture book biography.

Teaching Science in Diverse Classrooms Douglas B. Larkin, 2019-08-29 As a distinctive voice in science education writing, Douglas Larkin provides a fresh perspective for science teachers who work to make real science accessible to all K-12 students. Through compelling anecdotes and vignettes, this book draws deeply on research to present a vision of successful and inspiring science teaching that builds upon the prior knowledge, experiences, and interests of students. With empathy for the challenges faced by contemporary science teachers, Teaching Science in Diverse Classrooms encourages teachers to embrace the intellectual task of engaging their students in learning science, and offers an abundance of examples of what high-quality science teaching for all students looks like. Divided into three sections, this book is a connected set of chapters around the central idea that the decisions made by good science teachers help light the way for their students along both familiar and unfamiliar pathways to understanding. The book addresses topics and issues that occur in the daily lives and career arcs of science teachers such as:

- Aiming for culturally relevant science teaching
- Eliciting and working with

students' ideas • Introducing discussion and debate • Reshaping school science with scientific practices • Viewing science teachers as science learners Grounded in the Next Generation Science Standards (NGSS), this is a perfect supplementary resource for both preservice and inservice teachers and teacher educators that addresses the intellectual challenges of teaching science in contemporary classrooms and models how to enact effective, reform

Stolen Sharpie Revolution Alex Wreck, 2014-12-01 Since 2002, *Stolen Sharpie Revolution: a DIY Resource for Zines and Zine Culture* has been the go-to guide for all things zine-related. This little red book is stuffed with information about zines. Things you may know, stuff you don't know and even stuff you didn't know you didn't know! *Stolen Sharpie Revolution* contains a cornucopia of information about zines and zine culture for everyone from the zine newbie to the experienced zinester to the academic researcher. *Sharpie Revolution* consists of thoughtful lists and step-by-step how-to guides on everything from definitions of a zine, where to find zines, why they are important, how to make them and how to participate in zine culture. This book has everything you need to get started creating your own zine, or to figure out what to do with the zine you just made. *Stolen Sharpie Revolution* serves as both an introduction into the wide world of zine culture and as a guide to taking the next step to become a part of it.

Zines in Libraries Lauren DeVoe, Sara Duff, 2021-12-20 Featuring contributions from leaders in the intersection between zines and libraries, including Katrin Abel, Jeremy Brett, Ann (A'misa) Matsushima Chiu, Marta Chudolinska, Jenna Freedman, Joan Jocson-Singh, Mica Johnson, Lauren Kehoe, Joshua Lupkin, Meg Metcalf, and Ziba Perez, this book presents an in-depth look at adding these unique materials successfully to a library collection. Their homegrown and esoteric aesthetic make zines important cultural and historical objects. Including them in library collections is a perfect way to amplify underrepresented voices. But the road from acquisition to cataloging these underground, self-published, and often fragile items can be difficult. This resource smooths the path forward, offering top-to-bottom guidance for collection development and acquisitions staff, administrators, catalogers, and access services librarians in understanding and processing zines for library collections. Readers will learn why these collections are valuable, and how libraries can start a collection of their own; targeted advice on zine collection development and management, including policy, selection, cataloging, and promotion; how to navigate the challenges of obtaining zines from small independent vendors, zinefests, distros, third-party donors, and art collectives; ways

to work with zine creators to develop a respectful preservation program; insights from a case study exploring genre, context, and purpose in contemporary Latin American fanzines; where zines can fit in at school libraries or in one-shot instruction; and a look at the future of zines, from online zines to zine communities that are increasingly accessible, inclusive, and diverse.

Public Collectors Marc Fischer, 2014 Established in 2007 by Marc Fischer, and featured in the 2014 Whitney Biennial, Public Collectors encourages collectors of material culture--the kind that most museums won't exhibit--to 'open' their collections to the public. Extending the popular website of the same name, this book presents a wide array of collections--some featured on the website, most newly assembled for publication--interspersed with commentary and essays exploring the problems and politics of collecting materials that may lack conventional monetary or cultural value.

Ladies of Letterpress Jessica C. White, Kseniya Thomas, 2015-03-01 The revival of traditional printing methods has been afoot for the last decade, and the tactile charm of letterpress has ensured that its popularity is on the rise. Ladies of Letterpress is an organization that champions the craft, and in particular seeks to showcase and promote the work of women printers. A gallery of art by its members, the work in Ladies of Letterpress ranges from greetings cards to broadsides and posters, and is offered in a cornucopia of type and illustration styles. What comes through clearly, though, is the quality of the work: every one of these pieces is worthy of display on your wall, and with 80 detachable pages, you can create an instant and beautiful gallery of your own.

Risomania John Z. Komurki, Luca Bendandi, 2017 Risography, named after the Japanese firm Riso, is a stencil printing process based on screen printing techniques that was developed in the transition phase from mechanical to digital printing. Although the printer looks like a copying machine, the colors are transferred onto the paper without the use of heat or chemicals, saving energy and making the process ecologically friendly. Graphic artists and designers from around the world have now rediscovered the risograph for themselves - along with other machines for similar almost forgotten techniques such as mimeography - and sparked an unexpected renaissance of analog printing. A comprehensive introduction that addresses past, present and future is followed by an essay about the key pioneers in the contemporary risography scene. In the chapter Risoworld notable risography-oriented publishers, printers and design studios from around the world are presented. At the heart of the book are fabulous, hugely diverse examples such as postcards, magazines, posters, flyers and experimental printed products, all of which inspire by the force of their color, their unique textures and, above all, the perfectly imperfect authenticity of risography.

One Hundred Demons Lynda Barry, 2002 In this collection of 20 comic strips, Lynda Barry wrestles with some of her 100 demons in her signature quirky, irrepressible voice.

Mtsryr: Octobriana 1976 Jim Rugg, 2020-09-08 In 1971, the west learned about Octobriana - the outlaw Russian

superhero comic. To show solidarity, underground American cartoonists made their own Octobriana comic book. Robot Stalin's got a new doomsday bomb! Can the Devil-Woman stop him before he destroys us all? Siberian labor camps, PPP secret orgies, motorcycle gunship train chases - this one has it all! Samizdat gone wild - a cross between 70s psychedelia and Soviet constructivism!?! You've NEVER seen a comic book that looks like this! Revolution forever, bitch.

The Art of the Fold Hedi Kyle,Ulla Warchol,2018-10-02 The influential artist Hedi Kyle and renowned architecture graduate Ulla Warchol shows you how to create their unique designs using folding techniques. From creating flag books and fishbones, to blizzards and nesting boxes, you'll gain an invaluable insight into the work of two skilled artists with this fun read! With the help of their thorough instructions and simple illustrations, you'll be on your way to becoming a pro paper crafter in no time at all - Sew magazine A wonderful insight into the work of a truly skilled artist - PaperCrafter The renowned and influential book artist Hedi Kyle shows you step-by-step how to create her unique designs using folding techniques in The Art of the Fold. Bookbinding and paper craft projects include flag books, blizzard books, the fishbone fold, and nesting boxes. Written by the doyenne of artists' books, Hedi Kyle, The Art of the Fold is a wonderful insight into the work of a truly skilled artist. Hedi will show you how to bind a book and fold paper to create over 35 of her cut-fold book designs. The book is beautifully illustrated with Hedi's finished works of art. An excerpt from the book: 'I can still remember the thrill I experienced when my first folded book structure emerged from my fingers - how eager I was to explore its possibilities and to share it with whoever was interested. The Flag Book, as I now call it, is a simple accordion and has interlocking pages oriented in opposite directions. Little did I know that this simple structure would have legs and be the catalyst for the next forty-plus years of thinking about and making books. The common perception of the book today is fairly straightforward: a series of pages organized around a spine and protected on either side by two covers. This format allows for easy access, storage and retrieval of information. Yet what happens when the book is stripped away of centuries of preconceptions and is allowed to reveal something else: playfulness, utility, invention? Expanding the notion of the book is what the structures in the following chapters of The Art of the Fold attempt to do. Exploring its tactile, sculptural form, primarily through folding methods, the book as a structural object is celebrated while content is considered in a new and unconventional way. My range in this medium has always been broad. In part this is due to my introduction to the world of bookbinding and some chance encounters. In the 1970s in New York City, the art and craft of hand bookbinding and papermaking were experiencing an unprecedented revival. I was fortunate to arrive in the city at just this moment. With an art-school background and an impulse to make things, I was naturally drawn to pursue this new opportunity. The Center for Book Arts, the famous forerunner of so many centers yet to come, was located in a small storefront just down the street from where I lived on the Lower East Side of Manhattan. Under the direction of founder Richard Minsky, it had a radical mission: to push concept, materials, printing and making of artist books in a new direction. When Richard dared me to teach at the

Center one evening a week, I was hooked. My career as a book conservator and a book artist has now spanned over 45 years. As head conservator at the American Philosophical Society in Philadelphia, I've had the opportunity to handle some of the rarest volumes and manuscripts in the world. I have also dealt with decrepit books, torn maps and countless curiosities discovered in stacks and archives. All were endless sources for ideas and provided a springboard for a departure from tradition. Leading book-arts workshops around the world and a 25 year tenure teaching in the graduate program for Book Arts and Printmaking at the University of the Arts in Philadelphia have shown me, in retrospect, that the more I taught, t

Girl Zines Alison Piepmeier, 2009-11-01 The first book-length exploration of the quirky feminist booklets With names like The East Village Inky, Mend My Dress, Dear Stepdad, and I'm So Fucking Beautiful, zines created by girls and women over the past two decades make feminism's third wave visible. These messy, photocopied do-it-yourself documents cover every imaginable subject matter and are loaded with handwriting, collage art, stickers, and glitter. Though they all reflect the personal style of the creators, they are also sites for constructing narratives, identities, and communities. Girl Zines is the first book-length exploration of this exciting movement. Alison Piepmeier argues that these quirky, personalized booklets are tangible examples of the ways that girls and women 'do' feminism today. The idiosyncratic, surprising, and savvy arguments and issues showcased in the forty-six images reproduced in the book provide a complex window into feminism's future, where zinesters persistently and stubbornly carve out new spaces for what it means to be a revolutionary and a girl. Girl Zines takes zines seriously, asking what they can tell us about the inner lives of girls and women over the last twenty years.
